EDITORIAL:
SOFTWARE SURVEY SECTION

The purpose of the Software Survey Section in BIORHEOLOGY is to encourage the open exchange of information on software programs unique to our professional field. With the rapid penetration of computers into academic and industrial institutions has come a parallel increase in the number of scientists and researchers designing their own software. The existence of much of this software remains unknown to even those of us who could most benefit from its use. We believe that it is of vital importance to our readers that such information be made available. We believe also that a professional journal is the best place to share such information. Your contribution would be most welcome.

The questionnaire on the following pages is designed to assist you in reporting on software that you may have developed or be in the process of developing. By completing this form, your information will reach thousands of your colleagues who may benefit from your work and may possibly offer suggestions for further enhancements to your software. Please complete the enclosed form and return it to:

Dr. Richard Skalak
Bioengineering Institute
Columbia University
Seeley W. Mudd Building
520 West 130th Street - Room 639
New York, NY 10027

We do not intend to review or comment on the contents of the questionnaire. It will be published as is in order to expedite the information cycle process. I would welcome any comments you may have.

NAME OF JOURNAL ____________________ BIORHEOLOGY

PERGAMON
SOFTWARE DESCRIPTION FORM

Title of software package: ____________________________________________

It is: [ ] Application program [ ] Utility [ ] Other ________________

Specific area ___________________________ (e.g. Thermodynamics, Inventory Control)

Software developed for [name of computer(s)] __________________________

in [language(s)] ____________________________

to run under [operating system] ____________________________

and is available in the following media:

[ ] Floppy disk/diskette. Specify:

  Size _______ Density _______ [ ] Single-sided [ ] Dual-sided

[ ] Magnetic tape. Specify:

  Size _______ Density _______ Character set _______

Distributed by: ______________________________________________________

Minimum hardware configuration required: _____________________________

Required memory: _______________ User training required: [ ]Yes [ ] No

Documentation: [ ] None [ ] Minimal [ ] Self-documenting

[ ] Extensive external documentation

Source code available: [ ] Yes [ ] No

Level of development: [ ] Design complete [ ] Coding complete

[ ] Fully operational [ ] Collaboration would be welcomed

Is software being used currently? [ ] Yes [ ] No

If yes, how long? _______________ If yes, how many sites? _______________

Contributor is available for user inquiries: [ ] Yes [ ] No

(continued)

RETURN COMPLETED FORM TO:

Dr. Richard Skalak
Bioengineering Institute
Columbia University
Seeley W. Mudd Building
520 West 130th Street - Room 639
New York, NY 10027

Software Survey Section

Description of what software does [200 words]:

Potential users: __________________________________________

Fields of interest: __________________________________________

Name of contributor: _______________________________________

Institution: ________________________________________________

Address: _________________________________________________

Telephone number: ____________________________

Reference No. [Assigned by Journal Editor] ____________

[The information below is not for publication.]

Would you like to have your program:

Reviewed? [ ] Yes [ ] No [ ] Not at this time

Marketed and distributed? [ ] Yes [ ] No [ ] Not at this time
