CONTENTS OF CLINICAL HEMORHEOLOGY, VOLUME 14, NUMBER 3

J.P. Isbister 305

Review Article
Blood volume, hematocrit and hemorheology: The interrelationships

Non-Conference Communications Papers

K. Toth, T. Habon, I. Horvath, B. Mezey, I. Juricskay and Gy Mozsik 329

Blood viscosity profiles in polycythemia: Neonatal polycythemia

W. Oder, B. Oder, H. Kollegger, J. Spatt, K. Zeiler, S. Aull, M. Mraz and P. Wessely 339

Hemorheological and hemodynamical parameters in patients with ischemic heart disease at rest and at peak exercise

V. Lipovac and M. Gavella 347

Rheological action of gangliosides on human erythrocytes

H. Kiesewetter, A. Birk, F. Jung and H. Radtke 355

Effects of felodipine on the arterial blood pressure and fluidity of blood in patients with arterial hypertension WHO stage I

D. Yova, M. Haritou and D. Koutsouris 369

Antagonistic effects of epinephrine and helium-neon (He-Ne) laser irradiation on red blood cells deformability

S.P.M. Crouch, E.M. Saihan and J. Fletcher 379

Effect of ingested pentoxifylline on the \textit{ex vivo} neutrophil function of patients with varicose leg ulcers
G. Caimi, R. Lo Presti, M. Montana, B. Canino, G. Ventimiglia, A. Catania and A. Sarno  
Platelet membrane fluidity, platelet membrane lipid pattern and platelet cytosolic Ca^{2+} content in subjects with vascular atherosclerotic disease

A. Chabanel and M.M. Samama  
Evaluation of a method to assess plasma viscosity: The falling ball viscometer

C. Allegra, A. Carlizza, A. Mari and R. Sarcinella  
Long-term infusional and oral therapy with pentoxiphylline in peripheral vasculopathy: A 3-year follow-up

A. Vayá, M. Martínez, V. Moreno and J. Aznar  
Erythrocyte deformability in patients with primary hypertriglyceridemia

Submitted by D. Lerche  
Letter to the Editors-in-Chief
Abstracts

Announcements
First China-France International Symposium of Biomechbology
9th International Congress of Biomechbology and 2nd International Conference on Clinical Hemorheology
XXIIrd Annual Conference of the International Society on Oxygen Transport to Tissue

Contents of Biomechbology
Volume 31, Number 1
