Education and training for librarianship and information work: Annual bibliography, 1993

Alan J. Clark

Librarian, Information and Library Studies Library, University of Wales Aberystwyth, Llanbadarn Fawr, Aberystwyth, Dyfed SY23 3AS, United Kingdom

The 1993 bibliography follows the pattern of earlier years, covering items published worldwide during the previous year.

Subject access is provided by the contents list and classified arrangement and through a subject index which includes entries for countries and regions. I would like to thank my colleague Tony Curwen for advice on some details of subject access. As a result some sections have been renamed and a more detailed classified arrangement provided in some sections of the bibliography. The name index includes entries for authors, both personal and corporate and name subject entries for other entities.

Over the years items in the bibliography have reflected a growth in the number of areas for which librarianship and information science training is seen as an appropriate preparation. This trend is recognised in the 3rd edition of Ray Prytherch’s Information management and library science: a guide to the literature. Gower, 1994, a major source in LIS bibliography.

Another trend is the explosion of electronic journals, bulletin boards and mailing lists available over the Internet and similar networks. Many professional groups at local and national level now use these sources of information and communication. In the UK the Bulletin Board for Libraries (BUBL) is a major source of information for LIS workers and LIS educators. In the United States JESSE is a well established source of electronic communication for all those both in the States and beyond interested in LIS education. Electronic sources are proliferating so rapidly it is difficult to keep track of them. I would be grateful to receive news of any electronic journals, bulletin boards, computer conferences, Usenet groups or e-mail lists relevant to LIS educators and trainers. I will include an appendix listing these in next year’s bibliography.
