EDUCATION AND TRAINING FOR LIBRARIANSHIP AND INFORMATION WORK: ANNUAL BIBLIOGRAPHY, 1987

Alan J. CLARK

The Library, College of Librarianship Wales, Aberystwyth, Dyfed SY23 3AS, United Kingdom

Received 25 May 1988

This is the second year of this annual bibliography of work in librarianship and information science education and training. The bibliography covers works published in 1987 and is international in scope. As promised last year the coverage of foreign language material has been extended and this is reflected in the increase in the number of items cited.

The arrangement is by subject and then alphabetical by author and title, with a contents list facilitating broad subject access. The name index includes authors and name subject entries for individuals, organisations and some other entities. The alphabetical subject index includes entries for names of countries and regions. A list of periodical title abbreviations used is also supplied.

Compilation of the bibliography has used in the main the collections and resources of the library of the College of Librarianship Wales. CLW Library's monthly publication Library Link contains amongst other current awareness services, a bibliography of library education which includes ephemeral, news items excluded from this bibliography.
