

CONTENTS

SPEAKER SESSIONS

Pre-congress Courses (PCO)

p3 – p8 Tuesday, October 1, 2013

Oral Sessions (O)

p8 – p20 Wednesday, October 2, 2013

p20 – p31 Thursday, October 3, 2013

p31 – p43 Friday, October 4, 2013

The abstracts included in this section were written and submitted by presenters voluntarily. Due to this, not every session is listed. For an accurate schedule of the Congress please refer to the final Program.

Speakers in the French track had the option of writing the abstract in English or French.

POSTER SESSIONS

Basic Science

- p43** Etiology, genetics, epidemiology, and toxicants
- p51** Cell death, neuroprotection and trophic factors
- p56** Protein misfolding and handling
- p59** Mitochondria, oxidative stress, inflammation, pathogen
- p63** Pathology
- p61** Animal and cellular models of Parkinsonisms
- p72** Brain physiology and circuitry
- p75** Dopamine, receptors and other neurotransmitters
- p77** Neuropharmacology
- p79** Electrophysiology & functional imaging, optogenetics
- p82** Prevention, neuroprotection neuroplasticity

Clinical Sciences

- p86** Symptoms, signs, features, & non-motor manifestations
- p97** Progression and prognosis
- p99** Behavioral disorders
- p102** Cognition, mood, and memory
- p108** Sleep disorders and fatigue
- p111** Diagnosis (differential, accuracy)
- p115** Co-morbidities
- p116** Biomarkers and neuroimaging
- p123** Pharmacology therapy
- p131** Surgical therapy, including cell and gene therapy
- p136** Rehabilitation sciences (PT, OT, SLP)
- p158** Complications of therapies
- p159** Clinical trials: design, outcomes, recruiting, etc.
- p165** Rating Scales
- p167** E-health and technology

Care Delivery & Quality of Life

- p172 Caregiving, relationships, respite care, families
- p177 Fitness, wellness, nutrition
- p182 Alternative and complementary therapies / Creativity
- p186 Lay/ Professional health literacy & Public thought
- p187 Disability and quality of life outcome measures
- p192 Shared decision-making: PwP - caregiver - doctor
- p193 Palliative care / End of life care/ Long-term care
- p194 Health accessibility / Underserved populations
- p197 Daily life activities including working & driving
- p198 Self-management, empowerment, coping strategies
- p203 Pharmacist, social worker & nonprofit team members

Living with Parkinson's

- p203 Public Education or Awareness Programs
- p210 Government Advocacy/Campaigns/ Public Policy
- p211 Living well with PD
- p222 Advancing research: fundraising, trials, campaigns
- p223 Other

LATE-BREAKING ABSTRACTS**Oral Sessions (O)**

- p228 Friday, October 4, 2013

Basic Science

- p228 Etiology, genetics, epidemiology, and toxicants
- p230 Protein misfolding and handling
- p230 Mitochondria, oxidative stress, inflammation, pathogenesis
- p231 Animal and cellular models of Parkinsonisms
- p231 Brain physiology and circuitry
- p232 Dopamine, receptors and other neurotransmitters

Care Delivery & Quality of Life

- p232 Caregiving, relationships, respite care, families
- p232 Daily life activities including working & driving

Clinical Sciences

- p233 Symptoms, signs, features, & non-motor manifestations
- p234 Progression & prognosis
- p234 Cognition/mood/memory
- p236 Diagnosis (differential, accuracy)
- p236 Rehabilitation sciences (PT, OT, SLP)
- p238 Rating scales

Living with Parkinson's

- p239 Public education or awareness programs
- p239 Living well with PD

INDEX

- p241 Author Index
