

List of Special Issues

Subscribers, readers, reviewers, and editorial board members,

NeuroRehabilitation is celebrating its 25th anniversary and we wish to thank you all. As part of the 25th anniversary celebration, we have compiled a list of previous special issues for your review. We look forward to continuing to provide you with topical, clinically relevant, empirical information on neurorehabilitation. Please contact us with your feedback and ideas for review articles, thematic issues and research papers.

With best wishes,

Nathan Zasler, M.D.
Jeffrey Kreutzer, Ph.D.
Co-Editors-in-Chief

Vol. (no)	Title of issue	Guest Editor(s)
1(1)	Neuropharmacology	Nathan Zasler
1(2)	Family outcome intervention	Jeffrey Kreutzer
1(3)	Traumatic Brain Injury	Nathan Zasler and Jeffrey Kreutzer
1(4)	Spinal Cord Injury	Robert G. Frank
2(1)	Substance abuse	Allen W. Heinemann
2(2)	Stroke	Elliot J. Roth
2(3)	Cognitive rehabilitation	Wayne A. Gordon
2(4)	Outcome evaluation	Karyl M. Hall
3(1)	Geriatric rehabilitation	Peter A. Lichtenberg
3(2)	Behavior management practices in rehabilitation settings	
3(3)	Pediatric rehabilitation	
3(4)	Multiple sclerosis (MS)	John DeLuca
4(1)	Vocational rehabilitation	Nathan Zasler and Jeffrey Kreutzer
4(2)	Model systems of care	
4(3)	Cognitive rehabilitation therapy	Rick Parente
4(4)	Neurogenic bladder	Todd Linsenmeyer
5(1)	Functional outcomes in rehabilitation	Robert G. Frank and Brick Johnstone
5(2)	Behavioral neurology	David S. Geldmacher
5(3)	Agitation in brain injury	Todd R. Rowland
6(1)	Evaluation and care of comatose, vegetative and minimally responsive patients	Joseph Giacino
6(2)	Ethical considerations	John D. Banja
6(3)	Neuro-optometric rehabilitation	William Padula and Stephanie Argyris
7(1)	Medical and legal issues in rehabilitation	Jeffrey Kreutzer
7(2)	Life care planning	Carol Petty Zasler
8(1)	Cognitive rehabilitation	Brick Johnstone and Robert G. Frank
8(2)	Post-poliomyelitis syndrome (PPS)	Daria A. Trojan
8(3)	Somatoform disorders	Robert W. Teasell and Allan P. Shapiro
9(1)	Current motor control issues in stroke rehabilitation	Kathye E. Light
9(2)	Brain injury in children	Marilyn Lash and Ron Savage
10(1)	The model systems brain injury program	Jeffrey Kreutzer
10(2)	Motor rehabilitation (part 1)	V. Dietz
10(3)	Motor rehabilitation (part 2)	V. Dietz
11(1)	Evaluation of disability	V. Rober May
11(2)	IBIA Conference	Nathan Zasler and Jose Leon-Carrion

(Continued)

Vol.(no)	Title of issue	Guest Editor(s)
12(1)	Technology in neurorehabilitation	Michael Rosen
12(2)	Neuro-orthopaedic issues	Nathaniel H. Mayer
14(2)	Chronic neuropathic pain (part 1)	Michael F. Martelli and Nathan Zasler
14(3)	Chronic neuropathic pain (part 2)	Michael F. Martelli and Nathan Zasler
15(2)	Sexuality and neurologic disability	Marcalee Sipski
16(1)	Meeting the challenge of community integration after brain injury: An international perspective	Robert J. Rauch
16(2)	NeuroLaw	Bruce H. Stern
16(3)	Mobility research	Amir Seif-Naraghi
16(4)	Controversies in neuropsychology	Michael F. Martelli and Nathan Zasler
17(1)	Electromedicine in neurorehabilitation	Daniel L. Kirsch
17(2)	DSM-IV and acquired brain injury	Jose Leon-Carrion
17(4)	Evaluation and treatment of neurobehavioral complications of traumatic brain injury – Have we made any progress?	Thomas W. McAllister
18(1)	Cognitive prosthetic systems	Randy Dayle
18(2)	Telerehabilitation	Bruce J. Diamond
19(1)	Aging with a neurodisability: Morbidity and life expectancy issues	Michael J. DeVivo
19(2)	Community Integration following SCI	William O. McKinley and Michelle A. Meade
19(3)	Children and youth with Traumatic Brain Injury	Marilyn Lash
19(4)	Vegetative state	Gian Luigi Gigli and Nathan Zasler
20(1)	Neurorehabilitation of the multifaceted and complicated neurologic problems associated with lightning and electrical injuries	Michael Cherington
20(3)	Rehabilitation and neurologic repair in Parkinson's Disease	Ronald T. Seel and David X. Cifu
21(2)	Constraint-Induced Movement Therapy	Edward Taub and Gitendra Uswatte
21(4)	Where the rubber hits the road: Successful vocational reintegration for survivors of traumatic brain injury	Dennis J. Magrega
22(1)	Brain injury and the family	Angelle M. Sander
22(3)	Concussion and sports	Barry Willer and John J. Leddy
22(5)	Neurodevelopmental disorders	Jacob A. Neufeld
22(6)	Palliative rehabilitation and Amyotrophic Lateral Sclerosis: A perfect match	Leo McCluskey
23(1)	Emerging approaches in rehabilitation after brain injury	Lumy Sawaki
23(4)	The benefits and barriers to leisure occupations	Anne Fenech
23(5)	Geriatric neuropsychology	Thomas A. Martin and Shane S. Bush
23(6)	Assessment, treatment and service issues for students with traumatic brain injury	Mary R.T. Kennedy
24(1)	Racial/ethnic disparities in outcomes after central nervous system injury	J.C. Arango-Lasprilla
25(1)	Neurorehabilitation technologies – present and future possibilities	Thomas Sinkjær and Dejan B. Popović
25(3)	Rehabilitation design	Nathan Zasler
26(1)	Hypoxic-ischemic brain injury	David B. Arciniegas
26(3)	Military traumatic brain injury and blast	David F. Moore and Michael S. Jaffee
27(1)	International perspectives on caregiving	Juan Carlos Arango-Lasprilla and Jeffrey Kreutzer
28(1)	Orthotics in neurorehabilitation	Natasha Lanin
28(3)	Assistive technology for people with neurological disability	Tony Gentry
29(2)	Vestibular rehabilitation: Ready for the mainstream	Michael E. Hoffer and Carey D. Balaban
30(1)	Spanish speakers with neurological and psychiatric disabilities: Relevant factors related to rehabilitation	Juan Carlos Arango-Lasprilla
30(3)	Pediatric brain injury and recovery	Peter D. Patrick and Ronald C. Savage
31(1)	Community based rehabilitation after neurologic injury	Stephanie A. Kolakowsky-Hayner
31(3)	Neuroimaging in neurorehabilitation	Elisabeth A. Wilde, Jill V. Hunter and Erin D. Bigler
32(2)	TBI and aging	Wayne A. Gordon
32(3)	Balance and vestibular function	Brian D. Greenwald and James M. Gurley
32(4)	Neurobehavioural disorders after Traumatic Brain Injury: Assessment, treatment and outcome	Rodger Ll. Wood
33(1)	Integrating robot-assisted interventions into standard of care	Hermano Igo Krebs
33(4)	International Conference on Recent Advances in Neurorehabilitation (ICRAN 2013)	

(Continued)

Vol.(no)	Title of issue	Guest Editor(s)
34(1)	Cognitive rehabilitation therapy	Rick Parente
34(4)	Perspectives on behavior and acquired brain injury	Harvey E. Jacobs
36(1)	ICF and Rehabilitation	Christine Brogardh and Jan Lexell
36(3)	Life care planning and case management in brain injury	Susan Riddick-Grisham
36(4)	The assessment of symptom and Performance Validity in Neurorehabilitation	Shane S. Bush
37(1)	Neurorehabilitation of Parkinson's Disease and ALS	Jau-Shin Lou
37(3)	Assistive technologies for cognition/cognitive support technologies	Marcia J. Scherer and Stefano Federici
37(4)	Commonly used neuropsychological tests for Spanish speakers: Normative data from Latin America	Juan Carlos Arango-Lasprilla
38(3)	Relationships following neurological conditions	Giles Yeates
39(1)	Effectiveness of neurorehabilitation treatment for individuals	Rick Parente
39(3)	Unintentional injury following Traumatic Brain Injury	Juliet Haarbauer-Krupa
39(4)	From theory to practice: Engagement in neurorehabilitation	Megan Danzl and Nicole Etter
