What is work? Is it just gainful employment or something more? Work can be viewed as “any activity that contributes to the goods and services of society, whether paid or unpaid. Work represents a major area of human performance that encompasses such life roles as wage earner, homemaker, volunteer, student, or hobbyist. Assisting people to successfully carry out work tasks and satisfactorily participate in meaningful work roles is an important goal...” (AOTA, 2001). WORK, the journal, plays an important role in assisting practitioners, educators, researchers, and students to better understand the concept of work. By reading WORK, we are all better equipped to provide best practice to our clients.

As always, I welcome hearing from you.

Cheers,

Karen
