

ANNOUNCEMENTS

International Symposium on
HEMORHEOLOGICAL APPROACH TO CARDIOVASCULAR DISEASES

A Satellite Meeting of the Fourth
International Congress of Biorheology

Osaka, Japan. August 3, 1981.

A satellite symposium on Hemorheological Approach to Cardiovascular Diseases (ISHA) will be held on August 3 (Monday) at National Cardiovascular Center, Osaka. The scientific program will include three invited lectures and a symposium of Contribution of Hemorheology to Clinical Medicine. All correspondence concerning the Symposium should be sent to Dr. Hideyuki Niimi, Secretary General ISHA, National Cardiovascular Center, 5-125 Fujishiro-dai, Suita, Osaka 565, Japan.

SECOND EUROPEAN CONFERENCE ON CLINICAL HEMORHEOLOGY

London, England. 30. September - 2. October, 1981.

For further details, please write to:

Miss B. Komoniewska BA, Conference Secretary
Second European Conference on Clinical Hemorheology
Royal Society of Medicine
1 Wimpole Street, London W1M 8Ae, United Kingdom

WORKING GROUP ON RED CELL DEFORMABILITY AND FILTERABILITY

London, UK. 29. September, 1981.

A working group meeting on Methods for the Measurement of Red Cell Deformability and Filterability has been scheduled to take place on September 29, 1981 one day prior to the Second European Conference on Clinical Hemorheology. Any information pertaining

to this meeting may be obtained from Dr. G.D.O. Lowe, University of Glasgow, Department of Medicine, Royal Infirmary, 86 Castle St., Glasgow, G4 OSF, UK. Telephone Number: (041) 552-3535.

Conference on the Rheologic Contributions to
Thrombosis and Hemostasis

Bethesda, MD, USA. June 4 - 5, 1981.

National Institute of Health, Wilson Hall.

A conference sponsored by the Division of Blood Diseases and Resources of the National Heart, Lung, and Blood Institute will be held on June 4-5, 1981, at the National Institutes of Health. The conference will feature leading investigators in the area of thrombosis and hemostasis. Topics for discussion will include the effect of fluid flow on the formation and stabilization of arterial and venous thrombi, and the rheologic evaluation of hemostatic mechanisms.

For further information and pre-registration material, please contact: Dr. James L. Wyatt, Division of Blood Diseases and Resources, National Heart, Lung, and Blood Institute, Federal Building, Room 5C10, Bethesda, MD 20205, or telephone (301) 496-5911.

53rd Annual Meeting of the Society of Rheology

Non-Traditional Experimental Techniques for
Determining Viscometric Functions

Louisville, KY, USA. October 11 - 15, 1981.

Areas to be discussed may include (but are not limited to) measurement and interpretation of : integral variables in non-viscometric flows and in near-viscometric flows, velocity profiles in non-viscometric flows, heat and/or mass transfer phenomena linked to flow reversals, non-uniform flows, novel stretching techniques, response to vibrations, etc.

The title of a paper, along with an abstract, is due on February 28, 1981.

Please note that this meeting is held in the week immediately following the 2nd World Congress on Chemical Engineering in Montreal.
