

CONTENTS OF CLINICAL HEMORHEOLOGY, VOLUME 8, NUMBERS 3/4

VOLUME 8, NUMBERS 3/4

1988

SPECIAL ISSUE
The Fifth European Conference
on Clinical Hemorheology
Part I

Contents

- A.L. Copley and M.R. Boisseau 281 *Preface*
A.L. Copley and S. Witte 283 *Editorial*
Proceedings of the 5th European Conference
on Clinical Hemorheology. 29 June—1 July 1987.
Bordeaux, France
- M.R. Boisseau 285 *Welcome Address*
The Robin Fåhræus Medal Award Ceremony
- H. Schmid-Schönbein 287 *Laudatio: Fåhræus Awardee Jean-François Stoltz*
J.-F. Stoltz 293 *The Fåhræus Award Lecture: The importance of*
rheological theory in clinical hemorheology
The A.L. Copley Lecture Award for Young
Investigators in Clinical Hemorheology
- A.L. Copley 305 *Introduction*
A. Chabanel 307 *The A.L. Copley Award Lecture: Lipid and protein*
contribution to red blood cell membrane
viscoelasticity
Plenary Lectures
- S. Forconi 321 *Regional ischemia and hyperviscosity*
L. Heilmann 341 *Intrauterine ischemia*
Symposium: Angiology and Hemorheology
- H.J.L. Boccalon 351 *Introduction: Meeting of angiology and*
hemorheology in Bordeaux
- M. Vayssairat, P. Priollet, N. Baudot and 353 *Nailfold capillary microscopy: Its practical*
JL. Portos *application in patients with Raynaud's*
phenomenon
- P.C. Carpentier, P.Y. Benhamou 359 *Conjunctival capillary microscopy: A simple*
and A. Franco *method for investigating microcirculatory disorders*
in humans

(Continued on next page)

(Contents continued)

- H. Boccalon 367 Laser doppler flowmeter and vascular diseases
- A. Bollinger 379 Fluorescence videomicroscopy
- M. Depairon, J.C. Depresseux and M. Zicot 385 Quantitation of regional muscle blood flow and oxygen uptake rate at rest and after exercise in arteriopathic patients
- R. Delahaye and R. Fabry 391 Modifications in blood flow observed by conjunctival angiography after 10 days of treatment by pentoxifylline (using 19 cases)
- Symposium: Vessel Wall-Blood Cell Rheology*
- K.S. Herrmann and H. Kreuzer 399 Hemorheological parameters of anti-thrombotic agents. Naftidrofuryl and aspirin
- Symposium: Rheology of Renal Diseases*
- M. Duchesne-Gueguen, F. Durand, P. Le Pogamp, J. Garry, M.-C. Le Goff, V. Joyeux, D. Chevet and B. Genetet 407 Study of hemorheological parameters in patients with chronic renal failure and evolution of those parameters in the course of dialysis treatment
- P. N'Guyen, J.C. Adjizian, O. Toupance, D. Jolly, A. Brissart and E. Petitfrère 415 Rheology of hemodialysed patients: Erythrocytic populations study. Effect of a low molecular weight heparin (K 2165)
- H.J. Hein, R.M. Bauersachs, E.I. Feinstein and H.J. Meiselman 425 Hemorheological abnormalities in chronic renal failure
- G. Caimi, F. Vaccaro, A. Serra, F. Picone, A. Romano and A. Sarno 433 Macro- and microbiological determinants in chronic renal failure
- P. Zachée, M.P. Emonds, W. Goossens, R. DaeLemans, R.L. Lins and M.A. Boogaerts 439 Erythrocyte deformability (ED) and oxidative sensitivity (OS) in haemodialysis patients (HD)
- Symposium: Red Cell/White Cell Subpopulations*
- D. Seiffge 445 Analysis of the passage of single blood cells in a single pore filtration system
- D. Koutsouris, R. Guillet, J.C. Lelièvre, M. Boynard, M.T. Guillemin, P. Bertholom, R.B. Wenby, Y. Beuzard and H.J. Meiselman 453 Individual red blood cell transit times during flow through cylindrical micropores
- T. Herrmann, E. Gremillet, J. Juge, A. Champailler, P. Rusch and J.C. Healy 461 Non-invasive method to measure red blood cells transit time through the microcirculation of the brain
- J. Stuart, A.J. Keidan, P.C.W. Stone and M.C. Sowter 467 Rheological study of erythrocyte sub-populations prepared by density-gradient fractionation
- E. Franzini, F. Moutard Martin and M. Thao Chan 477 Leukocyte filterability: Its measurement in the laboratory and effects of pentoxifylline
- E. Franzini, F. Driss, Ph. Darcet, Fr. Driss, F. Daoud and M. Thao Chan 485 Influence of physico-chemical and pathological factors on the individual red cell transit time
- E. Franzini, F. Driss, Fr. Driss, F. Daoud, Ph. Darcet and M. Thao Chan 493 The role of red cells subpopulations in the determination of erythrocyte deformability
- Symposium: Epidemiology and Hemorheology*
- J.W.G. Yarnell, P.M. Sweetnam, R.D. Hutton, M.E. Davies and P.C. Elwood 501 Plasma and whole blood viscosity in ischaemic heart disease: The Caerphilly studies

- E. Ernst, W. Koenig, A. Matrai and U. Keil 507 Plasma viscosity and hemoglobin in the presence of cardiovascular risk factors
- G.D.O. Lowe, W.C.S. Smith,
H.D. Tunstall-Pedoe, I.K. Crombie,
S.E. Lennie, J. Anderson and J.C. Barbenel 517 Cardiovascular risk and haemorheology – Results from The Scottish Heart Health Study and the MONICA project, Glasgow
- Poster Communication*
- C. Bonithon-Kopp, P.Y. Scarabin,
A. Malmejac, M. Thao-Chan,
J.M. Chrétien, A. Spriet and L. Guize 525 Menopause-related change in plasma viscosity
- 533 *Announcements*
- 539 *Literature Survey*
