|---|-----|---|
| A.L. Copley and S. Witte  | 259 | <i>Editorial</i><br><i>In Memory of Syoten Oka—Biorheologist and Person</i>   |
| E. Fukada   | 261 | Obituary: Syoten Oka (1907–1990)  |
| A.L. Copley   | 271 | Oka's Theories Bearing on the Vessel-Blood Organ and its EEFL Interface   |
| S. Oka  | 279 | Excerpt from letter of 23 March 1990 to A.L. Copley<br><i>Papers</i>  |
| R.L. Swank, I.A. Vaden and A.J. Leckband  | 281 | Confirmation of multiple sclerosis by red cell electrophoretic mobility   |
| A.W. Dreisbach, M. Madan and V. Batuman   | 295 | Cell volume changes in filtration studies of red cell deformability   |
| E. Ernst, Ch. Altmann and T. Saradeth   | 303 | Hemorheological changes following exposure to moderately high altitude  |
| G.B. Nash, T. Loosemore, P.R.S. Thomas and J.A. Dormandy  | 309 | Effects of acute Trental infusion on white blood cell rheology in patients with critical leg ischaemia                        |
| S.U. Persson and H. Larsson   | 317 | Studies on red cell filterability: Significance of buffer media   |
| C.J. Wachter, P.L. Frattini, T.-C. Hung, R.L. Kormos, B.P. Griffith and H.S.P. Borovetz                           | 325 | Erythrocyte deformability in patients during left ventricular assistance  |
| M.L. Bravo, G. Escolar and J.G. White   | 339 | Dextran "in vitro" do not inhibit the hemorheological mechanisms of platelet function   |
| Y. Nagakawa, Y. Akedo, S. Kaku and H. Orimo   | 351 | Effect of idebenone on hemorheologic variables in geriatric patients with cerebral infarction                                 |
| F. Laghi Pasini, A.L. Pasqui, D. Pieragalli, A.A. Acciavatti, M. Saletti, F. Guideri, C. Galigani and T. Di Perri | 361 | Soluble haemoglobin-induced rheological impairment: A role for oxygen free radical formation                                  |
| M. Braide, U. Nannmark and U. Bagge   | 369 | Bolus filtration of leukocytes: A method to study the pressure dependence of leukocyte filter pore passage time distributions |
| T. Weiss, P. Ruef and O. Linderkamp   | 383 | A simplified method to produce micropipettes with flat tips   |

*(Continuation of Contents)*

- R. Schpitz-Droz, C. Bucherer, J. Ladjouzi, C. Lacombe and J.C. Lelievre 387 Are there two kinds of fibrinogen in diabetic plasma as suggested by a multivariate analysis?
- R.R. Puniyani and S. Sonar 397 Hemorheological changes at menopause
- A. Lapolla, A. Calabrò, C. Gerhardinger, M.G. Dal Frà, A. Franchin, D. Fedele and G. Crepaldi 405 Glycated erythrocyte membrane proteins and haemorheological parameters in insulin dependent diabetic subjects
- D. Phat, K. Ley, K.-E. Arfors and M. Intaglietta 417 In vitro determination of the force required for detachment of human polymorphonuclear granulocytes (PMN) from cultured endothelium and immobilized albumin
- E. Ernst, L. Daburger and T. Saradeth 429 The kinetics of blood rheology during and after prolonged standardized exercise
- M.W. Rampling, J.R. Brown, R.J. Robinson, M.D. Feher, S. Cholerton and P.S. Sever 441 The short-term effects of abstinence from tobacco by cigarette smokers on blood viscosity and related parameters
- C. Bernasconi, A. Del Santo, F. Marrali, M. Laffranchi, S. Milani and A. Agostoni 447 Reference limits for blood viscosity: Influence of sex and age
- Wen Zong-Yao, Tao Zu-Lai, Cao Shi, Zhao Yu-Heng, Han Zhan-Shan, Li Yu-Mei, Lu Shu-Hua, Wang Hong-ru, Xu Jia-Ling, Li Gong, Yu Gui-Fen and Wu Ben-Jie 459 Can we use PBS as an alternative to Dextran in Ektacytometric measurement?
- J. Roux, J.-M. Dumont, A. Aellig and T. Imamura 465 Effect of turpentine treatment on hemorheological parameters in rats
- A. Scheffler, U. Steinbach and H. Rieger 479 Effects of ischaemia-related suspension media and pore size on erythrocyte filterability in peripheral arterial occlusive disease
- Mini-Reports*
- N. Dikmenoğlu, O.K. Başkurt, E. Levi, S. Çağlayan and S. Güler 497 How does sulphur dioxide affect erythrocyte deformability?
- D. Keeling, D. Isenberg and K. Patterson 501 Comparison of plasma viscosity and erythrocyte sedimentation rate in patients with clinically graded systemic lupus erythematosus
- Wen Zong-Yao, Cao Shi, Tao Zu-Lai, Zhao Yu-Heng, Li Yu-Mei, Lu Shu-Hua, Wang hong-Ru, Xu Jia-Ling, Li Gong, Yu Gui-Fen and Wu Ben-Jie 507 The influence of different suspending media on Ektacytometric osmocan curve
- 511 *Announcements*
- 513 *Abstracts: 7ème Reunion de la Société d'Hémorhéologie de l'Ouest, Rennes, France le 18 Mai 1990*
- 523 *Abstracts: The 1st Congress of Haemorheology and Vascular Pathology, Report and Abstracts of the International Meetings, Lisbon, Portugal 10-13 October 1990*
- 565 *Recommended Abbreviations and Units in Hematology*
