

EUROCONFERENCE E T R O

ANNOUNCEMENT

We have pleasure in announcing a "EUROCONFERENCE" under the auspices of the European Community, European Thrombosis Organisation (ETRO) and IVS on :

"Erythrocyte endothelium interactions - an example of heterotypic interaction"

to be held in Paris 15-16th December 1994.

Major themes : Molecular basis of erythrocyte - endothelium interactions - oligosaccharides and blood groups involved in cell cell interactions - cell attachments and cell migration - vascular dysregulation and hemoglobin - animal models and transgenic animals - human pathology.

Invited speakers : A. Almenar, M. Bevilacqua, Y. Beuzard, J-P. Cartron, G. Davies, G. De Gaetano, E. Dejana, F. Galacteros, J. Gordon, D. Loukopoulos, T. Lusher, J. Maclouf, G. Nash, J-P. Rosa, D. Stern, V. Van Hinsberg, J-L. Wautier, R. Zwaal.

The Commission of the European Community (CEC) under the human capital and mobility programme has set up a scheme to provide financial support for young researchers and post-graduate students - generally those under 35 years of age, especially those from less favoured areas of the EC to attend conferences. The support may contribute towards registration fees subsistence expenses during the conference or travel expenses.

Application for such support must be made directly to our address and not to the CEC. Applicants must be citizens of a European Community member state or persons living and working in research for at least one year in European Community.

Secretariat : Professor J-L. Wautier, Biologie Vasculaire et Cellulaire, Hôpital Lariboisière, 2 Rue Ambroise Paré, 75010 Paris, France.
Phone : (33) 1 - 49.95.62.03 - fax : (33) 1 - 42.85.21.71.
