

### THE ADVANCES IN COMPUTER CHESS 6 CONFERENCE

23-24 August 1990

The conference commences at 10.30 Thursday 23 August, and will end at 4.30 Friday 24 August.

The provisional programme includes:

<i>Chunking for Experience</i>	Jonathan Schaeffer, Michael George
<i>Taxonomy of concepts for evaluating chess strength</i>	Hans Berliner, Danny Kopec, Ed Northam
<i>Experiments with Selective Trees &amp; Majority Systems</i>	Ingo Althöfer
<i>A completely distributed chess program</i>	Rainer Feldman
<i><math>\alpha\beta</math> conspiracy-number search</i>	Victor Allis, Maarten van der Meulen
<i>Chess databases instead of chess literature</i>	Nico Kuijf, Peter van Diepen
<i>Making dumb databases talk</i>	John Roycroft
<i>Title to be announced</i>	Mikhail Donskoy

Other papers on search, learning and parallelisation are anticipated for the final programme.

Registration is 30 pounds (UK pounds only please), cheques payable to "Queen Mary and Westfield College".

Accommodation is available at hotels within easy travelling distance of QMW at a variety of prices (list available on request). Single rooms are also available at QMW's student halls of residence, also within easy travelling distance of QMW, if booked by 3 August 1990. The cost is 12.50 pounds per night, including breakfast.

Please send the booking form below to: Don Beal, Department of Computer Science, Queen Mary and Westfield College, London University, Mile End Road, London E1 4NS, UK.
