EDITORIAL

This is the year of the Fourth World Computer Chess Championship and the election of new officers for the three years following the Championship. More about the tournament and the election is found on page 2. Other features in this Newsletter are the complete results of the 1982 ACM North American Computer Chess Championship, a tutorial by Kathe Spracklen on representation of an opening book tree, and some comments by David Levy on adjudications in computer tournaments.

Enclosed with this Newsletter is the application form for renewal of membership in ICCA. Again, the renewal fee is \$10 (U.S. funds), and it should be sent with the renewal application to:

William Blanchard
Bell Labs, Room 4A165
Naperville-Wheaton Road
Naperville, IL 60566
USA

Only paid-up members will receive the remaining 1983 Newsletters.

We urge all of our readers to send in material for publication in the Newsletter. Submissions should be addressed to:

B. Mittman, Editor
ICCA Newsletter
Vogelback Computing Center
Northwestern University
Evanston, Illinois 60201
USA

We wish you all a very Happy New Year!

B. Mittman, Editor
J. Cesal, Editorial Asst.
