

Author Index Volume 2 (2014/2015)

Alonso, E.E., Foreword	1
Buscarnera, G. and C. Mihalache, Instability of unsaturated soils: A review of theoretical methods	39–65
Caicedo, B. and L. Thorel, Centrifuge modelling of unsaturated soils	83–103
Fellenius, B.H., see Nguyen, M.H.	105–117
Howie, J., see Lobo, B.	143–158
Hunt, C.E., see Sheil, B.B.	119–142
Khalili, N., see Salimzadeh, S.	67–82
Lobo, B., F. Schnaid, M. Rocha and J. Howie, Shear strength of granular soils from the simulation of dynamic penetration tests	143–158
Maghous, S., Numerical modeling of colloidal transport in Fractured porous media with double layered fracture-skin. Discussion of a paper by N. Natarajan and G. Suresh Kumar, <i>Journal of Geo-Engineering Sciences</i> , 1(2) 83-94, 2014.	159–160
Manzanal, D., see Pereira, J.-M.	3–16
McCabe, B.A., see Sheil, B.B.	119–142
Merchán, V., see Romero, E.	17–37
Mihalache, C., see Buscarnera, G.	39–65
Nguyen, M.H. and B.H. Fellenius, Bidirectional cell tests on non-grouted and grouted large-diameter bored piles	105–117
Pereira, J.-M., M. Rouainia and D. Manzanal, Combined effects of structure and partial saturation in natural soils	3–16
Pestana, J.M., see Sheil, B.B.	119–142
Rocha, M., see Lobo, B.	143–158
Romero, E., J. Vaunat and V. Merchán, Suction effects on the residual shear strength of clays	17–37
Rouainia, M., see Pereira, J.-M.	3–16
Salimzadeh, S. and N. Khalili, Consolidation of unsaturated lumpy clays	67–82
Schnaid, F., see Lobo, B.	143–158
Sheil, B.B., B.A. McCabe, C.E. Hunt and J.M. Pestana, A practical approach for the consideration of single pile and pile group installation effects in clay: Numerical modelling	119–142
Thorel, L., see Caicedo, B.	83–103
Vaunat, J., see Romero, E.	17–37
