

Keyword Index Volume 5 (2012)

abnormal antenatal Doppler	155	depressed fracture	71
airway obstruction	81	developmental psychology	57
ALT	305	DNA damage	381
amino acids	149	earmuff	249
anaerobes	163	Edwards syndrome	1
Apgar at 1 minute	65	ELISA	229
Apgar score	65	empyema	163
aphonia in the newborn	75	endotracheal intubation	75
AST	305	environment	221
autoamputation	279	eosinophilic pustular folliculitis	179
<i>Bacteroides fragilis</i>	163	epidemiology	335
biochemistry	305	ethnicity	99
bloodstream infection	335	extreme prematurity	105
bottle feeding	311	extremely low birth weight infants	33
brain abscess	173	feeding intolerance	17
breastfeeding	135	fetal abnormality	1
bronchopulmonary dysplasia	105	fetal	275
BUN	149	fluid	143
Ca channel blocker	389	forceps	99
calculation	143	fracture	87
calprotectin	229	full term	169
cerebral oximetry	119	GDM management	261
chromatography	149	Glenn procedure	81
chronic lung disease	81	glucose	25
cold stress	373	glycosylated hemoglobin	127
common mental disorders	135	heparin	87
communication	1	2-heptanone	221
congenital heart disease	81	herpes simplex virus infection	179
congenital hydrocephalus	357	hope	1
corticosteroids	235	hyperbilirubinemia	381
cost	1	hypoglycemia	25
CPK	305	hypoxia	229
craniocervical malformations	275	hypoxic-ischaemic encephalopathy	41, 305
3-D off-line fetal examination	347	India	183
3D ultrasonography	347	infant	143, 249
delivery	393		
dengue infection	91		

infantile primary myelofibrosis	393	NIRS	9, 119
infants of diabetic mothers	127	noise	249
inflammation	41	NT-proBNP	127
intraventricular hemorrhage	105, 113	nuchal translucency	347
ischemia	229	nutritional intervention	33
IUGR	155		
		obstetrician specialist	261
laryngeal atresia	75	operative delivery	99
late preterm neonate	25	oral feeding	311
LDH	305	osteopenia of prematurity	33
lymphangioma	275	ovarian cyst	279
lymphatic malformations	275	overt diabetes	261
macrocytic	275	patient-ventilator synchrony	205
magnetic resonance	363	PDA	149
maternal glycemic control	127	pericardial effusion	283
mechanical ventilation	205	perinatal dengue	91
meconium	9	perinatal morbidity	261
meningitis	163	perinatal outcomes	65
mesenteric saturation	9	perineal lacerations	99
methicillin-resistant <i>Staphylococcus aureus</i>	241	phototherapy	221, 381
micafungin	95	placental pathology	41
middle cerebral artery	357	pleural effusion	269
migraine	389	point-of-care testing	25
minimal enteral feeding	155	pollution	221
morbidity	173	pregnancy	135, 393
mupirocin	241	premature	113, 283
		prematurity	17, 81, 311, 327
narrative	1	prenatal ultrasound	275
<i>n</i> -butyl acetate	221	preterm children	57
NEC	9	preterm delivery	235
necrotizing enterocolitis	155	preterm infant	49, 95
neonatal eosinophilia	17	preterm premature rupture of the membranes	49
neonatal follow-up program	57	pre-term	143
neonatal incubator	221	Preterm	149, 163, 179, 363
neonatal intensive care	33	proportional assist ventilation	205
neonatal intestinal obstruction	279	pulmonary <i>Aspergillus</i>	95
neonatal management	261	pulmonary surfactant	183
neonatal morbidity	49	pulmonary surfactant associated protein B	183
neonatal mortality	49		
neonatal outcomes	235	resource poor conditions	373
neonate	25, 91, 143, 229, 327	respiratory disease	119
neonates	87, 269	respiratory distress	235
neonatology	65	respiratory support	169
neuroprotective	389	retinopathy of prematurity	289
neuropsychology	57	reversed diastolic flow	357
neutrally-adjusted ventilatory assist	205	ROP	289
new-born infant	373		
newborn	65, 71, 249	Saudi Arabia	57
NICU	213, 221, 249	sensorimotor stimulations	311

sepsis	173, 327	ultrasonography	113
simulation	213	ultrasound	363
skull fracture	71	umbilical venous catheter	269, 283
social support	135	urinary tract infection	327
<i>Staphylococcus aureus</i>	241, 335	UVC	269
stricture	279		
		vasculopathy	41
team training	213	vertical infection	91
term infants	381	very low birth weight	105, 113
thermal adaptation	373	visual complications of prematurity	289
threshold of viability	105	VOC	221
torsion	279		
total fluid intake	143	whooping cough	169
TPN	149	work of breathing	205
tracheal agenesis	75		
trisomy 18	1	zero Apgar score	65
1st trimester scan	347
