

Erratum

Erratum to: Concept Mapping to Define Components for an Occupation-Based Intervention for Parkinson's Disease and Anxiety

Christopher J. Lovegrove, Ingrid H.W.M. Sturkenboom, Jonathan Marsden and Katrina Bannigan

Pre-press 9 September 2024
Published 15 October 2024

[*Journal of Parkinson's Disease*, 14(1) (2024) 181-195, DOI 10.3233/JPD-230150]
<http://doi.org/10.3233/JPD-230150>

On page 185, some of the values in the published Table 1, in the column for “Care partners”, were incorrect. The corrected Table 3 is included below. The corrections don't affect other tables, figures, empirical results and conclusions.

Table 1
Participant characteristics of respondents to demographic questions

	Characteristic	All participants (n = 83)	People with Parkinson's (n = 72)	Care partners (n = 6)	Occupational therapists (n = 5)
Gender	Male	34 (41%)	32 (44%)	1 (17%)	1 (20%)
	Female	46 (55%)	37 (52%)	5 (83%)	4 (80%)
	Other (including transgender)	3 (4%)	3 (4%)	0	0
	35–44* years	3 (4%)	1 (1%)	0	2 (40%)
	45–64 years	34 (41%)	28 (39%)	3 (50%)	3 (60%)
	65–74 years	34 (41%)	33 (46%)	1 (17%)	0
	75 years and above	12 (14%)	10 (14%)	2 (33%)	0
	Median years PD diagnosis duration (range)	n/a	5 (1.0–21.0)	n/a	n/a

*No participants younger than this were involved in the study.
