

Editorial

With this issue of the Journal of Vestibular Research there are several changes in the Editorial Board. Dr. Bernhard Hess has resigned from the Editorial Board and Dr. Ji-Soo Kim and Dr. Michael von Brevern have been appointed as new Editorial Board members.

I wish to thank Dr. Hess for his contribution to the Journal of Vestibular Research for more than a decade.

Dr. Ji-Soo Kim is a neurologist with expertise in vestibular function and a recognized expert in cerebrovascular disease affecting balance function. We welcome Dr. Kim to the Editorial Board.

Dr. Michael von Brevern is a neurologist with expertise in vestibular function. Dr. von Brevern is our first Editorial Board member from Germany. His membership continues the essential international representation of the Editorial Board.

I also wish to thank each and every member of the Editorial Board of the Journal of Vestibular Research for their work maintaining and improving the quality of the Journal. Editorial Board members regularly assist in the peer-review process and advocate for the Journal. Their efforts are very much appreciated.

And finally, I wish to thank all those members of the vestibular research community who have volunteered their time to review manuscripts submitted to JVR. Their efforts allow JVR to continue as a peer-reviewed forum devoted exclusively to vestibular research.
