

## VESTIBULAR BIBLIOGRAPHY

- Polymerase chain reaction search for viral etiology of vulvar vestibulitis syndrome **Bornstein J.; Shapiro S.; Rahat M.; Goldshmid N.; Goldik Z.; Abramovici H.; Lahat N.** *American Journal of Obstetrics and Gynecology* 175/1 139-144
- Origin of the pulmonary venous orifice in the mouse and its relation to the morphogenesis of the sinus venosus, extracardiac mesenchyme (spina vestibuli), and atrium **Tasaka H.; Krug E.L.; Markwald R.R.** *Anatomical Record* 246/1 107-113
- Ultrastructural recognition of gap junctions between melanocytes in human vestibular organs by tannic acid containing fixative preparation and freeze-fracture technique **Masuda M.; Yamazaki K.; Toyama Y.; Kanzaki J.; Hosoda Y.** *Anatomical Record* 246/1 8-14
- Bilateral ptosis and upgaze palsy with right hemispheric lesions **Averbuch-Heller L.; Stahl J.S.; Remyer B.F.; Leigh R.J.** *Annals of Neurology* 40/3 465-468
- A case of REM sleep behavior disorder with autopsy-confirmed Alzheimer's disease: Postmortem brain stem histochemical analyses **Schenck C.L.; Garcia-Rill E.; Skinner R.D.; Anderson M.L.; Mahowald M.** *Biological Psychiatry* 40/5 422-425
- Rapid eye movement (REM) sleep deprivation in 6-OHDA nigro-striatal lesioned rats with and without transplants of dissociated chromaffin cells **Drucker-Colin R.; Duran-Vazquez A.; Salin-Pascual R.J.; Verdugo-Diaz L.; Mendoza-Ramirez J.L.; Jimenez-Anguiano A.** *Brain Research* 729/2 170-175
- Temporal relationship between the expression of Fos, Jun and Krox-24 in the guinea pig vestibular nuclei during the development of vestibular compensation for unilateral vestibular deafferentation **Darlington C.L.; Lawlor P.; Smith P.F.; Dragunow M.** *Brain Research* 735/1 173-176
- Behavior and physiology of the macaque vestibulo-ocular reflex response to sudden off-axis rotation: Computing eye translation **Snyder L.H.; King W.M.; Gianna C.** *Brain Research Bulletin* 40/5-6 293-302
- Vestibulo-ocular reflex of the squirrel monkey during eccentric rotation with centripetal acceleration along the naso-occipital axis **Merfeld D.M.** *Brain Research Bulletin* 40/5-6 303-309
- Transaural linear vestibulo-ocular reflexes from a single utricle **Lempert T.; Gianna C.; Brookes G.; Bronstein A.M.; Gresty M.A.** *Brain Research Bulletin* 40/5-6 311-313
- Three-dimensional orientation of the eye rotation axis during the Purkinje sensation **Fetter M.; Merfeld D.M.** *Brain Research Bulletin* 40/5-6 315-319
- Saccular impact on ocular torsion **De Graaf B.; Bos J.E.; Groen E.; Merfeld D.M.; Gresty M.; Jau-regui-Renaud K.** *Brain Research Bulletin* 40/5-6 321-330
- Ocular torsion before and after 1 hour centrifugation **Groen E.; De Graaf B.; Bles W.; Bos J.E.; Guedry F.** *Brain Research Bulletin* 40/5-6 331-335
- Neural network simulations of the primate oculomotor system. II. Frames of reference **Moschovakis A.K.; Harris C.** *Brain Research Bulletin* 40/5-6 337-345

- NMDA receptors of the vestibular nuclei neurones **Vidal P.P.;Babalian A.;De Waele C.;Serafin M.;Vibert N.;Muhlethaler M.** *Brain Research Bulletin* 40/5-6 347-352
- Otoconial alterations after embryonic development in hypergravity **Sondag H.N.P.M.;De Jong H.A.A.;Van Marle J.;Willekens B.;Oosterveld W.J.;Vidal P.P.;Sondag E.** *Brain Research Bulletin* 40/5-6 353-357
- Influence of visual signals on the coordination of spontaneous eye and head movements in infant rabbits **Tegetmeyer H.;Taube J.S.** *Brain Research Bulletin* 40/5-6 359-364
- Delayed visual maturation in infants: A disorder of figure-ground separation? **Harris C.M.;Kriss A.;Shawkat F.;Taylor D.;Russell-Eggitt I.** *Brain Research Bulletin* 40/5-6 365-369
- The subjective visual horizontal for different body tilts in the roll plane: Characterization of normal subjects **Tribukait A.;Bergenius J.;Brantberg K.;Mittelstaedt H.** *Brain Research Bulletin* 40/5-6 375-383
- The subjective horizontal at different angles of roll-tilt in patients with unilateral vestibular impairment **Bergenius J.;Tribukait A.;Brantberg K.;Lempert T.** *Brain Research Bulletin* 40/5-6 385-391
- Perceived body position and the visual horizontal **Mast F.;Jarchow T.;Mittelstaedt H.** *Brain Research Bulletin* 40/5-6 393-398
- The role of ocular torsion in visual measures of vestibular function **Curthoys I.S.;De Graaf B.;Groen H.;Riordan-Eva P.** *Brain Research Bulletin* 40/5-6 399-405
- The delay of the oculogravic illusion **Curthoys I.S.;Glasauer S.** *Brain Research Bulletin* 40/5-6 407-412
- Subjective postural vertical inferred from vestibular-optokinetic vs. proprioceptive cues **Bisdorff A.;Bronstein A.;Gresty M.;Wolsley C.** *Brain Research Bulletin* 40/5-6 413-415
- Shift of subjective reference and visual orientation during slow pitch tilt for the seated human subject **Ito Y.;Gresty M.A.** *Brain Research Bulletin* 40/5-6 417-421
- Can a unilateral loss of otolithic function be clinically detected by assessment of the subjective visual vertical? **Bohmer A.;Mast F.;Jarchow T.;Riordan-Eva P.;Curthoys I.** *Brain Research Bulletin* 40/5-6 423-429
- Control of the body vertical by vestibular and proprioceptive inputs **Hlavacka F.;Mergner T.;Krizkova M.;Amblard B.** *Brain Research Bulletin* 40/5-6 431-435
- Thresholds for detection of motion direction during passive lateral whole-body acceleration in normal subjects and patients with bilateral loss of labyrinthine function **Gianna C.;Heimbrand S.;Gresty M.;Glasauer S.;Young L.R.** *Brain Research Bulletin* 40/5-6 443-449
- Detection thresholds for object motion and self-motion during vestibular and visuo-oculomotor stimulation **Kolev O.;Mergner T.;Kimmig H.;Becker W.;Morland A.B.** *Brain Research Bulletin* 40/5-6 451-458
- Object motion perception during ego-motion: Patients with a complete loss of vestibular function vs. normals **Mesland B.S.;Finlay A.L.;Wertheim A.H.;Barnes G.R.;Morland A.B.;Bronstein A.M.;Gresty M.A.** *Brain Research Bulletin* 40/5-6 459-465
- Is perceived angular displacement the time integral of perceived angular velocity? **Mergner T.;Rumberger A.;Becker W.;Van der Steen F.A.M.** *Brain Research Bulletin* 40/5-6 467-471
- Simulating self-motion **Van der Steen F.A.M.;Koenderink J.** *Brain Research Bulletin* 40/5-6 473-475
- Quantitative analysis of human walking trajectory on a circular path in darkness **Takei Y.;Grasso R.;Berthoz A.;Gresty M.A.** *Brain Research Bulletin* 40/5-6 491-496

- Spatial orientation perception and reflexive eye movements - A perspective, an overview, and some clinical implications **Guedry F.E.** *Brain Research Bulletin* 40/5-6 505-512
- Eye movement patterns in reading as a function of visual field defects and contrast sensitivity loss **De Luca M.;Spinelli D.;Zoccolotti P.** *Cortex* 32/3 491-502
- Suppression of motion-produced smear during smooth pursuit eye movements **Bedell H.E.;Lott L.A.** *Current Biology* 6/8 1032-1034
- Sensory processing during early and late nocturnal sleep **Plihal W.;Weaver S.;Molle M.;Fehm H.L.;Born J.** *Electroencephalography and Clinical Neurophysiology* 99/3 247-256
- Postmarketing study of the use of flunarizine in vestibular vertigo and in migraine **Verspeelt J.;De Locht P.;Amery W.K.** *European Journal of Clinical Pharmacology* 51/1 15-22
- Firing properties of preposito-collicular neurones related to horizontal eye movements in the alert cat **Hardy O.;Corvisier J.** *Experimental Brain Research* 110/3 413-424
- Response properties of relay cells in the A-laminae of the cat's dorsal lateral geniculate nucleus after saccades **Fischer W.H.;Schmidt M.;Stuphorn V.;Hoffmann K.-P.** *Experimental Brain Research* 110/3 435-445
- Interaction of linear and angular vestibule-ocular reflexes of human subjects in response to transient motion **Anastasopoulos D.;Gianna C.C.;Bronstein A.M.;Gresty M.A.** *Experimental Brain Research* 110/3 465-472
- Shift in saccadic direction induced in humans by proprioceptive manipulation: A comparison between memory-guided and visually guided saccades **Allin F.;Velay J.L.;Bouquerel A.** *Experimental Brain Research* 110/3 473-481
- The ability to produce express saccades as a function of gap interval among schizophrenia patients **Clementz B.A.** *Experimental Brain Research* 111/1 121-130
- The 'gap paradigm' leads to express-like saccadic reaction times in Parkinson's disease **Roll A.;Wierzbicka M.M.;Wolf W.** *Experimental Brain Research* 111/1 131-138
- Cortical potentials during the gap prior to express saccades and fast regular saccades **Everling S.;Krappmann P.;Spantekow A.;Flohr H.** *Experimental Brain Research* 111/1 139-143
- Otolith orientation and downbeat nystagmus in the normal cat **Rude S.A.;Baker J.F.** *Experimental Brain Research* 111/1 144-148
- Response of guinea pig vestibular nucleus neurons to clicks **Murofushi T.;Curthoys I.S.;Gilchrist D.P.** *Experimental Brain Research* 111/1 149-152
- Modulation of vergence by off-vertical yaw axis rotation in the monkey: Normal characteristics and effects of space flight **Dai M.;Raphan T.;Kozlovskaya I.;Cohen B.** *Experimental Brain Research* 111/1 21-29
- Combined eye-head gaze shifts to visual and auditory targets in humans **Goldring J.E.;Dorris M.C.;Cornell B.D.;Ballantyne P.A.;Munoz D.P.** *Experimental Brain Research* 111/1 68-78
- Spatial orientation of semicircular canals and afferent sensitivity vectors in pigeons **Dickman J.D.** *Experimental Brain Research* 111/1 8-20
- Effects of fixation target timing on smooth-pursuit initiation **Morrow M.J.;Lamb N.L.** *Experimental Brain Research* 111/2 262-270
- Hypometric primary saccades of schizophrenics in a delayed-response task **Everling S.;Krappmann P.;Preuss S.;Brand A.;Flohr H.** *Experimental Brain Research* 111/2 289-295

- The opioid receptor antagonist, naloxone, enhances ocular motor compensation in guinea pig following peripheral vestibular deafferentation **Dutia M.B.; Gilchrist D.P.D.; Sansom A.J.; Smith P.F.; Darlington C.L.** *Experimental Neurology* 141/1 141-144
- Response latencies and event-related potentials during the gap paradigm using saccadic responses in human subjects **Gomez C.; Atienza M.; Gomez G.J.; Vazquez M.** *International Journal of Psychophysiology* 23/1-2 91-99
- Synapses from medial olivocochlear branches in the inferior vestibular nucleus **Benson T.E.; Brown M.C.** *Journal of Comparative Neurology* 372/2 176-188
- Secondary vestibulo-oculomotor projections in larval sea lamprey: Anterior octavomotor nucleus **Pombal M.A.; Rodicio M.C.; Anadon R.** *Journal of Comparative Neurology* 372/4 568-580
- Transitions between pursuit eye movements and fixation in the monkey: Dependence on context **Krauzlis R.J.; Miles F.A.** *Journal of Neurophysiology* 76/3 1622-1638
- Short-term adaptation of electrically induced saccades in monkey superior colliculus **Melis B.J.M.; Van Gisbergen J.A.M.** *Journal of Neurophysiology* 76/3 1744-1758
- Discharge properties of brain stem neurons projecting to the flocculus in the alert cat. I. Medial vestibular nucleus **Cheron G.; Escudero M.; Godaux E.** *Journal of Neurophysiology* 76/3 1759-1774
- Discharge properties of brain stem neurons projecting to the flocculus in the alert cat. II. Prepositus hypoglossal nucleus **Escudero M.; Cheron G.; Godaux E.** *Journal of Neurophysiology* 76/3 1775-1785
- Cholinergic and GABAergic receptors on fly tangential cells and their role in visual motion detection **Brotz T.M.; Borst A.** *Journal of Neurophysiology* 76/3 1786-1799
- Theoretical analysis of intercellular communication between the vestibular type I hair cell and its calyx ending **Goldberg J.M.** *Journal of Neurophysiology* 76/3 1942-1957
- Eye-centered, head-centered, and intermediate coding of remembered sound locations in area LIP **Striccanne B.; Andersen R.A.; Mazzoni P.** *Journal of Neurophysiology* 76/3 2071-2076
- Effects of single-pulse transcranial magnetic stimulation over the prefrontal and posterior parietal cortices during memory-guided saccades in humans **Muri R.M.; Vermersch A.-L.; Rivaud S.; Gaymard B.; Pierrot-Deseilligny C.** *Journal of Neurophysiology* 76/3 2102-2106
- A method for automatic identification of saccades from eye movement recordings **Marple-Horvat D.E.; Gilbey S.L.; Hollands M.A.** *Journal of Neuroscience Methods* 67/2 191-195
- Attentional modulation of visual motion processing in cortical areas MT and MST **Treue S.; Maunsell J.H.R.** *Nature* 382/6591 539-541
- Functional neuroanatomy of human rapid-eye-movement sleep and dreaming **Maquet P.; Peters J.-M.; Aerts J.; Delfiore G.; Degueldre C.; Luxen A.; Franck G.** *Nature* 383/6596 163-166
- Eyeblink classical conditioning in Alzheimer's disease and cerebrovascular dementia **Woodruff-Pak D.S.; Papka M.; Romano S.; Li Y.-T.** *Neurobiology of Aging* 17/4 505-512
- Trace eyeblink conditioning in rabbits demonstrates heterogeneity of learning ability both between and within age groups **Thompson L.T.; Moyer J.R. Jr.; Disterhoft J.F.** *Neurobiology of Aging* 17/4 619-629
- Contralesionally beating torsional nystagmus in a unilateral rostral midbrain lesion **Helmchen C.; Glaesauer S.; Bartl K.; Buttner U.** *Neurology* 47/2 482-486
- Evidence that short ACTH fragments enhance vestibular compensation via direct action on the ipsilateral vestibular nucleus **Gilchrist D.P.D.; Darlington C.L.; Smith P.F.** *NeuroReport* 7/9 1489-1492

- 
- A hypergravity related sensitive period during the development of the roll induced vestibuloocular reflex in an amphibian (*Xenopus laevis*) **Horn E.;Sebastian C.** *Neuroscience Letters* 216/1 25-28
- Tonic activity during visuo-oculomotor behavior in the monkey superior colliculus **Kojima J.;Matsumura M.;Togawa M.;Hikosaka O.** *Neuroscience Research* 26/1 17-28
- Fosphenytoin: A novel phenytoin prodrug **Boucher B.A.** *Pharmacotherapy* 16/5 777-791
- Myelin-containing corpora amylacea in vestibular root entry zone **Sbarbati A.;Carner M.;Colletti V.;Osculati F.** *Ultrastructural Pathology* 20/5 437-442
- Cyclopean and disconjugate adaptive recovery from post-saccadic drift in strabismic children before and after surgery **Inchingolo P.;Accardo A.;Da Pozzo S.;Pensiero S.;Perissutti P.** *Vision Research* 36/18 2897-2913
- Fixation conditions, the foveola and saccadic latency **Kalesnykas R.P.;Hallett P.E.** *Vision Research* 36/19 3195-3203
