

## Editorial

---

We are happy to announce the issue 3(1) 2002/2003, which comes out after a period of little activity around the journal. This is going to change, and we expect the journal to be back on a quarterly schedule already in this year. The Editorial Board of the journal is revised and includes prominent ergonomists/researchers. A European Associate Editor, Helmut Strasser has been appointed, who is the Co-chairperson of the ISOES/GFA Conference in Munich, Germany, May 7–9, 2003.

We appreciate your patience and understanding in the matter and we welcome your suggestions for the promotion and growth of the journal in the future. No doubt, we shall make every effort in this common pursuit.

*Biman Das*  
Editor-in-Chief
