

# Keyword Index Volume 10

abandonment procedures	189	lifeboat	189
Assam tea	69	lung function values	25
checklist	83	manual plucking	69
computer	83	maximal voluntary contraction	165
dynamic biomechanical model	113	medical job-oriented rehabilitation (MJOR)	139
electrical meter installation	13	motion environments	103
electromyograph (EMG)	175	muscle electromyography activity	165
electromyography	103, 155	musculo-skeletal disease	139
EMG	39	musculoskeletal disorder	25, 53, 155, 165
energy expenditure	1	musculoskeletal symptoms	69
ergonomic assessment	139	neck muscles	155
ergonomics interventions	69	Nordic questionnaire	69
escape breathing air	189	normalization	39
fatigue	1	observational task analysis	189
feedback	83	office	83
gender	155	older workers	53
hand acceleration	13	online training	83
health risk	125	Ovako Working Posture Analyzing System	25
horizontal pulling	155	overhead lifting	165
horizontal pushing	155	peak EMG	175
human performance	189	physical stress	139
hydraulic-actuation joysticks	39	physiological stress	25
installation evacuation	189	pot-haulers	125
integrated EMG	175	pressure distribution	13
ISO 2631-1	125	pulling	1
joint angles	165	repetitive lifting	113
joysticks	175	repetitive motion	1
kinematic adaptations	113	risk factors	53
		shoulder loading	39
		simulated platform motions	103
		spine loading	113
		steel manufacturing industry	125

striking	13	whole-body vibration	125
		worker-assessment	83
thermal stress	25		
thoracolumbar kinematics	103	young workers	53
time series	113		
trunk kinematics	1
