

## Volume Contents

### Volume 8 (1995)

VOL. 8 NO. 1,2

JUNE 1995

#### Special Issue

#### Novel therapeutics in the nervous system: gene transfers and trophic factors

##### *Introductory remarks*

The therapeutic trend of neurosciences

M. Peschanski, P.A. Dreyfus (France) 1

##### *First session: New ways to get into cells*

Internalization of macromolecules by live cells

D. Derossi, A. Prochiantz (France) 7

Tat-mediated delivery of heterologous macromolecules into living cells

J. Barsoum, C. Moore, J. Seery, Y. Daikh, L.L. Chen, K. Corina, P. Moy, R. Brown, R. Shapiro, F. Taylor, E. Androphy, B. Pepinsky, S. Fawell (USA) 11

Diphtheria toxin can be used as a vehicle for bringing other proteins into cells

I.H. Madshus (Norway) 13

Vitamin-mediated delivery of proteins, antisense oligonucleotides and genes into living cells

P.S. Low (USA) 15

Antennapedia homeodomain third helix as a peptide and oligonucleotide vector

D. Derossi (France) 17

##### *Second session: Viral vectors*

Virus vectors for gene delivery to the nervous system

F. Smith, D. Jacoby, X.O. Breakefield (USA) 21

Third-generation adenovectors for gene therapy

E. Vigne, J.-F. Dedieu, C. Orsini, P. Denèfle, M. Perricaudet, P. Yeh (France) 35

Cell type-specific expression from viral promoters within replication-deficient adenovirus recombinants in primary neocortical cultures

P.R. Lowenstein, D. Bain, A.F. Shering, G.W.G. Wilkinson, M.G. Castro (UK) 37

HSV-1 amplicons. Advantages and disadvantages of a versatile vector system

A.L. Epstein (France) 41

Using adenoviral vectors to transfer the CNTF gene into the CNS

F. Lisovoski, E. Peltekian, S. Akli, E. Vigne, C. Bouchard, G. Haase, P. Dreyfus, M. Perricaudet, A. Kahn, M. Peschanski (France) 45

##### *Third session: Engineered cells*

Engineered cells: a promising therapeutic approach for neural disease

L.J. Fisher (USA) 49

Cell-mediated delivery of neurotrophic factors and neuroprotection in the neostriatum and substantia nigra

O. Isacson, D.M. Frim, W.R. Galpern, S.B. Tatter, X.O. Breakefield, J.M. Schumacher (USA) 59

Transplantation of cells genetically modified and direct intracerebral gene transfer with an adenoviral vector expressing tyrosine hydroxylase in a rat model of Parkinson's disease Ph. Horellou, E. Vigne, M.-N. Castel, P. Barnéoud, M. Perricaudet, P. Delaère, J. Mallet (France)	63
Encapsulation of neurotrophic factor-releasing cells for the treatment of neurodegenerative diseases P. Aebischer, S.A. Tan, N. Déglon, B. Heyd, A. Zurn, E. Baetge, Y. Sagot, A. Kato (Switzerland)	65
Delivery of therapeutic proteins from genetically-modified cells N. Naffakh, P. Moullier, A. Salvetti, D. Bohl, O. Danos, J.M. Heard (France)	67
<i>Fourth session: Gene therapy for glioblastomas</i>	
Methodological aspects of clinical trials in diseases of the nervous system: conventional drug treatment versus gene therapy G. Bensimon, L. Lacomblez, V. Meininger, C.A. Valery, D. Klatzman (France)	73
Inhibition of tumor growth by dominant negative inhibition of growth factor receptor signals A. Ullrich (Germany)	75
Antisense IGF-1 gene transfer and immunotherapy of glioblastoma J. Trojan, J. Ilan (France, USA)	77
Novel non-viral systems for in vivo cancer gene therapy and delivery of trophic factors D. Platika (USA)	81
<i>Fifth session: Trophic factors</i>	
Neurotrophic factors: repair and regeneration in the central nervous system S.S. Varon, J.M. Conner, R.-Z. Kuang (USA)	85
Ciliary neurotrophic factor (CNTF): physiological and pharmacological effects M. Sendtner, R.A. Hughes, F. Dittrich, B. Holtmann, Y. Masu, P. Carroll, G. Ochs, K.V. Toyka, H. Thoenen (Germany)	95
The role of NGF in the peripheral nervous system J. Diamond, S. Lourenssen, Y. Kril, J. Fawcett, A. Gloster (Canada)	97
Neurotrophins and neurotrophin antagonists as potential therapeutics D.L. Shelton, S.B. McMahon, J.W. Winslow, W.-Q. Qao (USA, UK)	99
Trophic factors made by adrenal chromaffin cells and their putative clinical implications K. Unsicker, S.C. Bieger, B. Brühl, R.v. Coelln, P.M. Henheik, K. Huber, K. Krieglstein, V. Meyer, D. Otto, C. Suter-Crazzolaro, N. Wolf, A. Lachmund (Germany)	101
Gender, progesterone and the early stages of brain injury D.G. Stein (USA)	105

VOL. 8 NO. 3

AUGUST 1995

*Research reports*

Bridging of peripheral nerve defects with exogenous laminin-fibrin matrix in silicone tubes in a rat model L. Zeng, A. Wörseg, G. Albrecht, W. Öhlinger, H. Redl, W. Grisold, K. Zatloukal, G. Schlag (Austria)	107
Visual field enlargement after computer training in brain-damaged patients with homonymous deficits: an open pilot trial E. Kasten, B.A. Sabel (Germany)	113
Rat striatal astroglia induce morphological and neurochemical changes in adult bovine, adrenergic-enriched adrenal chromaffin cells in vitro G. Uceda, J.A. Colombo, P. Michelena, M.G. López, A.G. García (Argentina, Spain)	129
Differential expression of the electrophysiological responses to axotomy in bullfrog sympathetic neurons following nerve injury at 15°C M.E.M. Kelly, K. Lukowiak, M.A. Bisby (Canada)	137

*Clinical case report*

- Bilateral paramedian thalamic infarction with persisting signs of frontal lobe dysfunction  
H.J. Kunert, E. Irlle (Germany) 145

- Abstracts selected from Excerpta Medica's EMBASE* 155

**VOLUME 8 NO. 4****SEPTEMBER 1995***Research reports*

- Acceleration of functional recovery from motor cortex ablation by two *Ginkgo biloba* extracts  
in rats  
S. Brailowsky, T. Montiel, L. Medina-Ceja (Mexico) 163
- Dendritic outgrowth from neural cells transplanted to the hippocampal fissure  
D.I. Legendre, B.P. Vietje, J. Wells (USA) 169
- Activation of non-neuronal cells in the rat sciatic nerve in response to inflammation caused by  
implanted silicone tubes  
M. Kanje, L. Stenberg, A. Ahlin, L.B. Dahlin (Sweden) 181
- Microtubule-associated protein 2 as a sensitive marker for dendrite lesions after spinal cord  
trauma: an immunohistochemical study in the rat  
G.L. Li, M. Farooque, A. Holtz, Y. Olsson (Sweden) 189
- Nerve regeneration in silicone tubes: distribution of macrophages and interleukin-1 $\beta$  in the  
formed fibrin matrix  
L.B. Dahlin, Q. Zhao, L.M. Bjursten (Sweden) 199
- Scopolamine facilitates recovery of function following unilateral electrolytic sensorimotor  
cortex lesions in the rat  
R.M. Saponjic, M.R. Hoane, S. Barbay, T.M. Barth (USA) 205
- Abstracts selected from Excerpta Medica's EMBASE* 213
- Volume Contents* 221
