

Author Index Volume 30

The issue number is given in front of the pagination

- Abowd, J.M., Synthetic Establishment Data: Origins and Introduction to Current Research (2) 113–115
- Allaert, F.A., see Quantin, C. (3) 255–261
- Alldritt, R., Towards an international framework for statistical councils of national statistical systems (4) 349–357
- Argüeso, A. and J.L. Vega, A population census based on registers and a “10% survey” methodological challenges and conclusions (1) 35–39
- Arushanyan, A., K. Kouyumjyan, D. Martirosova, A. Mushtaq and F. Scheuren, Sustaining improved estimates of poverty in Armenia: An application of multivariate raking ratio adjustment (4) 331–339
- Ashley, J.D., see Kim, R.S. (4) 341–346
- Bakker, B., see Bethlehem, J. (3) 243–248
- Bakker, B.F.M., J. van Rooijen and L. van Toor, The System of social statistical datasets of Statistics Netherlands: An integral approach to the production of register-based social statistics (4) 411–424
- Belkindas, M.V. and E.V. Swanson, International support for data openness and transparency (2) 109–112
- Benzenine, E., see Quantin, C. (3) 255–261
- Bethlehem, J. and B. Bakker, The impact of non-response on survey quality (3) 243–248
- Brown, G., see Davies, C.A. (4) Using design principles to deliver strategy in a new organisational structure (4) 377–380
- Buso, M., see Yang, M. (2) 75–88
- Butani, S., see Yang, M. (2) 75–88
- Cameron, M.A., Opening Statistics (2) 89
- Clark, C.Z.F., see Harris, J.M. (4) 381–384
- Consultant, S., see Trewin, D. (3) 231–235
- Corcoran, M.E., see Kim, R.S. (4) 341–346
- Crimmins, E.M., see Saito, Y. (3) 209–223
- Davies, C.A. and G. Brown,
- De Haas, S. and P. Winker, Identification of partial falsifications in survey data (3) 271–281
- De Smedt, M., ISI Hong Kong session on ‘Improving health statistics in the context of quality of life’ (3) 185
- Drechsler, J. and L. Vilhuber, A first step towards a German SynLBD: Constructing a German Longitudinal Business Database (2) 137–142
- Dunne, J., see S. MacFeely, Laying the foundations for a new approach to Census taking in Ireland (4) 359–365
- Dunstan, K., see Waldon, J. (4) 399–410
- Elias, B., L. Hart and P. Martens, “Just get on with it.” Linking data systems to report on infant mortality and the First Nations population in Manitoba (Canada) (3) 285–295
- Elvers, E., Introduction to the special section “Experiences when building the methodological architecture for statistics production” (4) 369–370
- Faulkner, C.M., Using G2 to measure income inequality in two Latin American upper middle income countries (4) 321–329
- Garza-Aldape, E.S., v (3) 155–156
- Gastwirth, J.L., Median-based measures of inequality: Reassessing the increase in income inequality in the U.S. and Sweden (4) 311–320
- Gennari, P., see Keita, N. (1) 21–27
- Gissler, M. and A. Tuomi-Nikula, The role of health interview surveys, health examination surveys and disability surveys for measuring the health dimension (3) 225–229
- Gouyon, J.B., see Quantin, C. (3) 255–261
- Guesdon, M., see Quantin, C. (3) 255–261
- Gunaratna, N.S., Comment on: A nationally representative economic survey five months after the

- Haitian earthquake: Radical changes in household members and gender discrepancy in employment retention by R.S. Kim, J.D. Ashley and M.E. Corcoran (4) 347–348
- Hamel, M. and N. Laniel, Producing official statistics via voluntary surveys \bowtie the National Household Survey in Canada (3) 237–242
- Harris, J.M. and C.Z.F. Clark, Strengthening methodological architecture with multiple frames and data sources (4) 381–384
- Hart, L., see Elias, B. (3) 285–295
- Hiles, D., see Yang, M. (2) 75–88
- Jarmin, R.S., T.A. Louis and J. Miranda, Expanding the role of synthetic data at the U.S. Census Bureau (2) 117–121
- Jesiļevska, S., see Ŗķiltere, D. (4) 425–430
- Karlberg, M. and W. Radermacher, Discussion: Methodology Architecture – an area under construction (4) 393–398
- Karr, A.F., Why data availability is such a hard problem (2) 101–107
- Keita, N. and P. Gennari, Building a master sampling frame by linking the population and housing census with the agricultural census (1) 21–27
- Kim, R.S., J.D. Ashley and M.E. Corcoran, A nationally representative economic survey five months after the Haitian earthquake: Radical changes in household members and gender discrepancy in employment retention (4) 341–346
- Kinney, S.K., J.P. Reiter and J. Miranda, SynLBD 2.0: Improving the synthetic Longitudinal Business Database (2) 129–135
- Koczela, S., Discussion of “identification of partial falsification in survey data” (3) 283–284
- Kott, P.S., On voluntary and volunteer government surveys in the United States (3) 249–253
- Kouyumjyan, K., see Arushanyan, A. (4) 331–339
- Lange, A., The population and housing census in a register based statistical system (1) 41–45
- Laniel, N., see Hamel, M. (3) 237–242
- Lehohla, P. and J. Lukhwareni, The impact of victimisation on the daily activities of South Africans: A case study of the 2011 Victims of Crime Survey (3) 157–164
- Lengyel, G., Agricultural census 2010 in Hungary (1) 47–51
- Louis, T.A., see Jarmin, R.S. (2) 117–121
- Lukhwareni, J., see Lehohla, P. (3) 157–164
- Lynch, J., The evolving role of self-report surveys of criminal victimization in a system of statistics on crime and the administration of justice (3) 165–169
- MacFeely, S., see Dunne, J. (4) 359–365
- Madans, J.H., The role of statistics on health status in the context of measuring quality of life (3) 187–191
- Marciniak, G., Modern approach to censuses in the case of Poland – Advantages and constraints (1) 29–34
- Martens, P., see Elias, B. (3) 285–295
- Martin, K. and M. Ralphs, Using kernel methods to visualise crime data (3) 177–183
- Martirosova, D., see Arushanyan, A. (4) 331–339
- Miranda, J. and L. Vilhuber, Looking back on three years of using the Synthetic LBD Beta (2) 123–127
- Miranda, J., see Jarmin, R.S. (2) 117–121
- Miranda, J., see Kinney, S.K. (2) 129–135
- Mushtaq, A., see Arushanyan, A. (4) 331–339
- Mushtaq, A., see Yang, M. (2) 75–88
- Nelson, N. and K. West, Interview with Lars Thygesen (2) 67–73
