

Recent work by the Conference of European Statisticians

Fourth joint meeting on statistics of education (Geneva, 21–24 September 1982)

The meeting was co-sponsored by the Conference of European Statisticians and the United Nations Educational, Scientific and Cultural Organization. It considered miscellaneous problems affecting the standardization and international comparability of statistics of education, social indicators in the field of education, individual data systems in the field of education and recent work of international organizations in the field of education in the ECE region. The meeting also identified several areas on which further work was recommended to be undertaken by the Conference and/or UNESCO, and proposed the topics to be considered at a future joint meeting.
