

Forthcoming meetings convened by the Conference of European Statisticians

Meeting on statistics of household income (Geneva, 14–17 March 1994)

One of the main objectives of the meeting will be to discuss ways of preparing regional guidelines on statistics of the distribution of income, consumption and accumulation of households. The meeting will also consider questions of statistics of poverty and other methodological issues.

Work session on statistical output for dissemination to information media (Oslo, Norway, 15–17 March 1994)

The meeting will discuss implications of presenting computerized statistical data to the press and other media. The following topics will be highlighted: (i) purposes and results of communication between statistical offices and the press and other media; and (ii) feedbacks of the use of computerized statistics in this communication.

Joint ECE/EC (Eurostat) work session on statistics of environmental protection facilities and expenditures (Geneva, 24–25 March 1994)

The joint meeting is convened to conclude the work on a joint ECE/EC statistical classification of environmental protection expenditures and facilities. The draft classification to be prepared for the meeting will be fully in line with Eurostat's related methodological work (i.e., SERIEE).
