The Review of Income and Wealth

The Review of Income and Wealth is published quarterly by the International Association for Research in Income and Wealth (IARIW). It specializes in the areas of national accounts estimation and analysis; social accounting; microdata analysis of issues related to income and wealth; development and integration of micro and macro systems of economic, financial, and social statistics; international comparisons of productivity, income, and wealth; and related problems of measurement and statistical methodology. As a journal with an international readership, emphasis is placed on (1) studies of methodological interest, and (2) comparative analyses of more than one country.

ILO Bulletin of Labour Statistics

The Bulletin of Labour Statistics is published quarterly, with Supplements in the intervening months. It presents monthly and quarterly series on employment, unemployment, hours of work, wages and consumer prices from national official statistics. A separate edition of the Bulletin is published towards the end of each year with the results of the *ILO October Inquiry*, an annual survey of wages and hours of work in 159 occupations and of retail prices for 93 food items. The regular quarterly issues of the Bulletin usually include one or more articles of methodological interest in the area of labour statistics.

Recent articles published in the Bulletin of Labour Statistics are:

1993-1

National practices with respect to release of labour statistics into the public domain
T. Plewes

La mesure du niveau d'instruction de la population active dans les enquêtes auprès des ménages ou sur la main-d'oeuvre

M. Imbert

1993-2

15th International Conference of Labour Statisticians: Highlights of the Conference (including the full text of the three resolutions adopted by the Conference)

1993-3

Statistics on child labour: A brief report

K. Ashagrie

1993-4

Monetary valuation of unpaid work: Arguing for an output measurement

L. Goldschmidt-Clermont

ILO-comparable annual employment and unemployment estimates: Updated results and methodology (No. 4)

S. Lawrence

1994-1

Measuring hours of paid work: time-diary vs. estimate questions

J.P. Robinson and J. Gershuny

Estimating informal sector employment and incomes in Indonesia

S. Dhanani

The majority of articles are written in English with a short summary in French and Spanish.
Editor: Ms. Hazel Bennett, Bureau of Statistics, ILO, 4 route des Morillons, CH-1211 Geneva 22, Switzerland.
