

Forthcoming meetings convened by the Conference of European Statisticians

Plenary Session of the Conference of European Statisticians (Paris, 13–17 June 1994)

At the invitation of the OECD, the 1994 plenary session of the Conference will be held at the OECD in Paris. The topic of substantive discussion will be statistical planning and priority setting. The Conference will also discuss a recommended minimum programme of basic statistics which is intended to serve as a guide for countries in transition to a market-oriented economy and an integrated presentation of international statistical work planned to be undertaken by the ECE, Eurostat, the OECD, the UN Statistical Division, the UN Specialized Agencies and other international organizations in the UN/ECE region.

Joint ECE/CEC Work Session on Specific Methodological Issues in Environment Statistics (Helsinki, 18–22 September 1994)

Statistics Finland invited this 12th work session of the annual cycle of methodological discussions to Helsinki. The agenda of the meeting includes five items: preservation of confidentiality of individual environmental data; development of statistical environmental survey programmes; waste and recycling statistics; statistics on the marine environment; and a CES pilot study on physical environmental accounting as well as current issues of environmental accounting.
