

Keyword Index Volume 8 (2013–2014)

α multiplication method	117	fracture propagation	61
5083 aluminum alloy	145	friction welding	145
		fusion zone size	189
acoustic emission	219	grain size	105
adiabatic shear bands	81	Griffith crack	1
Alan Cottrell	61	GTA welding	189
alloy D9	219		
arc stud welding	145	high Cr steel	125
austenitic stainless steel	231		
axles	241	impact value	231
		IN100	25
bearings	135	interaction integral	1
brittleness	105		
buckling behavior	179	joint strength	145
buried pipeline	179		
		Lekhnitskii formalism	1
cleavage	81, 105	linear-elastic fracture mechanics	153
CM247LC	25	lubrication and wear	135
cohesive crack model	61		
corrosion resistance	189	master curve	45
CO ₂ laser welding	189	material structure	205
crack	93	mechanical properties	189
creep crack growth	125	mechanical similarity	93
creep crack growth life	205	mixed-mode I/II/III crack loading conditions	153
creep crack initiation	125	mixed-mode I/II fracture	13
creep deformation	45	multi-scale	205
creep ductility	45		
creep–fatigue interaction	25	nickel-base superalloy	25
C^* parameter	125	non-equilibrium science	25
		numerical analysis	117
defects	135		
dislocation pile-ups	81	persistent slip bands	81
dislocations	105	piezoelectric ceramics	1
duplex stainless steel	189	plastic collapse	61
		plastic strain	179
electron beam welding	231	Portevin–Le Chatelier effect	81
electron-microscopic analysis	135	potential induced particle diffusion	117
extended finite element method	1	process region	93
		projection method	93
fatigue	105		
fatigue tests	231	Q^* concept	25
finite element method	167, 179	Q^* parameter	125, 205
foam core composite sandwich beams	153		
force simulation	241	rigid foam	13
fractal	93		
fracture	93, 105	semi-elliptical crack	167
fracture life	25	similarity law	45
fracture mechanism	241		

single edge notched bend specimen	13	thermal stress	167
size effects	61	thrust fault	179
solidification structure	189	trailer/semi-trailer	241
spheroidal graphite cast iron	231		
steel	105	vacancy diffusion	205
strain energy release rate	13, 153		
stress multi-axiality	205	weight function	167
Stroh formalism	1	weldment	125
stud joint	145	wrapper tubes	219
tensile behaviour	219		
tensile strength	231	XCQ16	241
