EDITORIAL:
SOFTWARE SURVEY SECTION

The introduction of the new Software Survey Section to BIORHEOLOGY is to encourage the open exchange of information on software programs unique to our professional field. With the rapid penetration of computers into academic and industrial institutions has come a parallel increase in the number of scientists and researchers designing their own software. The existence of much of this software remains unknown to even those of us who could most benefit from its use. We believe that it is of vital importance to our readers that such information be made available. We believe also that a professional journal is the best place to share such information. Your contribution would be most welcome.

The questionnaire on the following pages is designed to assist you in reporting on software that you may have developed or be in the process of developing. By completing this form, your information will reach thousands of your colleagues who may benefit from your work and may possibly offer suggestions for further enhancements to your software. Please complete the enclosed form and return it to:

Dr. Richard Skalak
Department of Civil Engineering
Columbia University
Seeley W. Mudd Building
New York, New York 10027 USA

We do not intend to review or comment on the contents of the questionnaire. It will be published as is in order to expedite the information cycle process. I would welcome any comments you may have.
SOFTWARE SURVEY SECTION

NAME OF JOURNAL: BIORHEOLOGY

PERGAMON
SOFTWARE DESCRIPTION FORM

Title of software package: ____________________________________________

____________________

It Is: [ ]Application program [ ]Utility [ ]Other ________________________

Specific area
(e.g. Thermodynamics, Inventory Control)

Software developed for [name of computer(s)] ________________________
in [language(s)] ____________________________________________________
to run under [operating system] ______________________________________
and is available in the following media:
[ ] Floppy disk/diskette. Specify:
  Size ______ Density ______ [ ]Single-sided [ ]Dual-sided
[ ] Magnetic tape. Specify:
  Size ______ Density ______ Character set __________

Distributed by: ______________________________________________________

Minimum hardware configuration required: ______________________________

Required memory: __________ User training required: [ ]Yes [ ]No

Documentation: [ ]None [ ]Minimal [ ]Self-documenting
  [ ]Extensive external documentation

Source code available: [ ]Yes [ ]No

Level of development: [ ]Design complete [ ]Coding complete
  [ ]Fully operational [ ]Collaboration would be welcomed

Is software being used currently? [ ]Yes [ ]No
  If yes, how long? ______________ If yes, how many sites? ____________

Contributor is available for user inquiries: [ ]Yes [ ]No

Return completed form to:

  Dr. Richard Skalak
  Department of Engineering
  Columbia University
  Seeley W. Mudd Building
  New York, New York 10027
