### Contents

- |  |     |  |
|--|-----|--|
| A.L. Copley and S. Witte   | 819 | <i>Editorial</i>   |
| A.L. Copley  | 821 | <i>Editorial</i><br>The 100th Birthday of Robin Fåhræus<br><i>Invited Contribution</i>                           |
| P. Sourander and L.H. Breimer  | 825 | Robin Fåhræus (1888-1968)  |
| A.L. Copley  | 831 | List of publications on hemorheology by Robin Fåhræus and tributes to him. A selection<br><i>Papers</i>          |
| G.B. Nash, S.A. Steel and J.A. Dormandy  | 833 | Comparison of oscillatory and steady shear viscometry for analysis of "rheologically abnormal" blood             |
| Y.Y. Bilto, M.A. Green, M. Player, J. Stuart, D.J. Anstee, M. Lamba and P. Trijasson | 839 | Preparation of standards for quality control of the measurement of erythrocyte deformability (filterability)     |
| E. Ernst and A. Matrai   | 851 | The measurement of plasma viscosity: Experience with four commercially available instruments                     |
| W.H. Reinhart and P.W. Straub  | 861 | Detection of less deformable erythrocytes in suspensions: Evaluation of different rheological tests              |
| F.J. Nordt   | 877 | Rapid in vitro screening model for drugs affecting calcium ion mediated erythrocyte mechanical fragility         |
| HU De-en and RUAN Jing-Chao  | 891 | Haemorheological investigation of patients with nasopharyngeal carcinoma   |
| Y.Y. Bilto, J.C. Ellory, M. Player and J. Stuart                                     | 901 | Binding of oxpentifylline to the erythrocyte membrane and effects on cell ATP, cation content, and membrane area |
| R. Agosti, A. Clivati, M. D'Ettoire, F. Ferrarini, R. Somazzi and E. Longhini        | 913 | Hematocrit dependence of erythrocyte aggregation   |
