ANNOUNCEMENT

VII. MEETING OF EUROPEAN SOCIETY OF BIOMECHANICS
8-11 JULY 1990, AARHUS, DENMARK

The conference will cover all aspects of biomechanics, with special emphasis on cardiovascular biomechanics. Specific topics include experimental research, mechanical properties of biomaterials, flow dynamics, methodology in biomechanical research, mechanics of implants and clinical biomechanics. Approximately 200 scientific papers will be presented.

Invited lecturers will give presentations of selected topics; T.V. How (G.B.): Arterial Prostheses: Mechanical Properties and Haemodynamic Performance, and A.P. Yoganathan (U.S.A.): Cardiac Blood Flow. Special attention will be given in a course on cardiovascular flow dynamics.

For further information, please contact Biomechanics Laboratory, Orthopaedic Hospital, Randersvej 1, DK-8200 Aarhus N, Denmark, phone +45 8616 7500 ext. 4649, fax +45 8610 7733.

ANNOUNCEMENT

INTERNATIONAL UNION
OF THEORETICAL AND APPLIED MECHANICS

PRELIMINARY ANNOUNCEMENT

**18th International Congress
of Theoretical and Applied Mechanics**

TECHNION - ISRAEL INSTITUTE OF TECHNOLOGY
HAIFA, ISRAEL
AUGUST 22-28, 1992.

The 18th Congress will be held in Haifa, Israel, on the above dates. It will cover the entire field of theoretical and applied mechanics. A number of lectures will be given by invitation of the Congress Committee and up to 480 contributed papers will be presented either as lectures or in poster/discussion sessions.

Within the framework of the Congress, the following three topics will receive special attention as subjects of Mini-Symposia:

Instabilities in Solid and Structural Mechanics
Sea Surface Mechanics and Air-Sea Interaction
Biomechanics.

Participants who wish to contribute a paper to the Congress are asked to submit six copies of an extended Summary (500 words) and six copies of a brief Abstract [100-150 words, single page, double space typing, with full name and full address of the author(s)]. All authors must submit this material directly to the Congress Office to arrive not later than 15 January 1992. For the guidance of the Committee, authors should state their preferred mode of presentation, i.e., as a lecture or within a poster/discussion session. Final decisions on the selection of contributions for presentation at the Congress and their assignment to a lecture or poster/discussion session rest with the Congress Committee on the recommendations of the International Papers Committee.

More detailed announcements of plans and arrangements for the 18th Congress will be issued later in 1990. Those who wish to be placed on the circulation list for subsequent announcements should write to the Congress Office at the following address:

Prof. A. Solan, Secretary ICTAM 1992
Faculty of Mechanical Engineering
Technion - Israel Institute of Technology
Haifa 32000
ISRAEL.

ANNOUNCEMENT

I. INTERNATIONAL SYMPOSIUM ON VEIN GRAFT

Bologna, Italy

18 - 19 October 1990

The I. International Symposium on Vein Graft will take place in Bologna, Italy at the Istituto di Ricerca Codivilla Putti from 18-19 October 1990. This Symposium is the first of a series, promoted by the Center for the Study on Vascular Protheses. This Center has been created at the University of Bologna to promote scientific investigations on prosthetic material in the vascular field. Surveys especially linked to the biocompatibility of prosthetic materials.
