

Keyword Index Volume 10 (2014)

AASHTO HL93 live load	77	magnetic particle inspection	87
Al-Zn alloy galvanized wire	3	metallurgical evaluation	87
anticorrosion	55	MR	145
arch bridge	63	multi-column foundation	55
bridge cables	3	optimization	129
bridge fire	43	parametric study	77
bridge	11, 129	pile	11
cable spacing	129	postbuckling	43
cable-stayed arch bridge	63	radiographic testing	87
cable-stayed bridge	63	redundancy	105
cable-stayed	129	seismic analysis	145
collapse process	63	seismic behavior	117
corrosion	3	seismic design	117
critical flaw size	87	seismic isolation	145
curved bridge	145	seismic verification	55
deck stiffness	129	standard AASHTO girders	77
ERB	145	steel piles	117
fatigue	11	suspension bridge	55
finite element analysis	105	transverse stiffener	43
finite element	11	truss bridge	105
foundation design	11	ultimate strength	63
FPS	145	vertical deformation	129
high strength concrete	77	visual inspection	87
integral abutment bridges	117	web shear buckling	43
integral abutment	11		
load test	105		
LRB	145
