

# Keyword Index Volume 8 (2012)

assembly	121	imperfection sensitivity	25
		infrared	81
bascule bridge	121	infrastructure management	67
BMS	67		
bridge assembly	121	jointless bridges	15
bridge column	35		
bridge design	121	live load	61
bridge management systems	67	load combination	61
bridge	81, 135	load factors	61
cable-stayed bridge	93	near-fault ground motion	35
CE Database Subject Headings	135	nondestructive evaluation	81
columns	49		
composite section	93	pile buckling	15
concrete	81	pneumatic caissons	107
construction	49	pretension	93
corrosion	81	p-y curves	15
damage	135	rebar cages	49
dead load	61	reinforced concrete	35
dead-to-live load ratio	61	residual displacement	35
delamination	81		
design of experiments	121	seismic design	107
design	135	seismic	135
displacement	135	shrink-fitting	121
		soil structure interaction	107
energy method	15	stability	49
		stays	93
Fall Line	107	steel fulcra	121
fiber elements	35	steel fulcrum	121
finite element analysis	121	stress analysis	121
fracture	121	stressing sequence	93
		suspension bridge	25
geology of Eastern United States	107		
		thermography	81
hanger	25	tie wires	49
heating coils	121	transportation infrastructure	67
heating	121
