ANNOUNCEMENT

INTERNATIONAL CONFERENCE ON BIOMECHANICS
OLD WESTBURY, NY, USA
26-28 AUGUST, 1990

The Conference will cover biorheology and many aspects of biomechanics, such as basic biomechanical research, modelling, rehabilitation engineering, soft and hard tissue characterization, medical fibers in medicine, spine biomechanics, human motion analysis, biomaterials, electrical stimulation, bioelectricity, cardiovascular and dental biomechanics, sports biomechanics, biomechanics of trauma, biotechnology, imaging in medicine, resurfacing of articular cartilage, orthopedic biomechanics, clinical engineering, artificial organs, micro-gravity and medicine, bone remodelling. Oral and Poster Presentations.

Special Session on Liability of Medical Devices and Orthopedic Implants.

One-page Abstracts to be sent by 1 February 1990

To: Professor Ranu
Department of Biomechanics
New York Institute of Technology
Old Westbury, New York 11568 USA

Any other information contact H.S. Ranu

Tel: 516-626-6926 Fax: 516-626-1306

Accepted papers will be published in Conference Proceedings.
ANNOUNCEMENT

BIOLOGY OF VASCULAR CELLS
VIth INTERNATIONAL SYMPOSIUM
28-31 AUGUST 1990, PARIS, FRANCE

The VIth International Symposium will consist of invited key
lecturers, platform presentations and poster discussion
sessions. The purpose of this Congress is to present new
findings with the current understanding of vascular cell
biology in health and disease, emphasizing applied vascular
biology to vascular medicine and vascular surgery.

Organizing committee: J.P. Caen, J.-P. Cazenave, J.-L.
Wautier

For further information contact:
