EDITORIAL: SOFTWARE SURVEY SECTION

The purpose of the Software Survey Section in <u>CLINICAL HEMORHEOLOGY</u> is to encourage the open exchange of information on software programs unique to our professional field. With the rapid penetration of computers into academic and industrial institutions has come a parallel increase in the number of scientists and researchers designing their own software. The existence of much of this software remains unknown to even those of us who could most benefit from its use. We believe that it is of vital importance to our readers that such information be made available. We believe also that a professional journal is the best place to share such information. Your contribution would be most welcome.

The questionnaire on the following pages is designed to assist you in reporting on software that you may have developed or be in the process of developing. By completing this form, your information will reach thousands of your colleagues who may benefit from your work and may possibly offer suggestions for further enhancements to your software. Please complete the enclosed form and return it to:

Dr. Andrew McCulloch
Department of Applied Mechanics and Engineering Sciences
Bioengineering, R-012
University of California/San Diego
La Jolla, CA 92093-0412

We do not intend to review or comment on the contents of the questionnaire. It will be published as is in order to expedite the information cycle process. I would welcome any comments you may have.

THE EDITORS

JOURNAL NAME ______CLINICAL HEMORHEOLOGY PERGAMON PRESS SOFTWARE DESCRIPTION FORM Title of software program: _____ Type of program: [] Application [] Utility [] Other_ statistics, thermodynamics, etc.) (ie. Psychological assessment, Category: Developed for (name of computer/s): _____ in (language/s):______ to run under (operating system): ____ available on: [] Floppy disk/diskette. Specify: Size _____ Density ____ [] Single-sided [] Dual-sided [] Magnetic tape. Specify: Size _____ Density ____ Character set ____ Hardware required: _____ Memory required: ____ User training required: [] Yes [] No Documentation: [] None [] Minimal [] Self-documenting []Extensive external documentation Source code available: [] Yes [] No Stage of development: [] Design complete [] Coding complete [] Fully operational [] Collaboration welcomed Is program in use? [] Yes How long? ____ How many sites? ____ Is the contributor available for user inquiries: [] Yes [] No
