

CONTENTS OF BIORHEOLOGY, VOLUME 28, NUMBERS 3/4

Contents

	<i>In Memory of Syoten Oka— Biorheologist and Person</i>
A.L. Copley and A. Silberberg	119 A Tribute to Syoten Oka
E. Fukada	123 Obituary: Syoten Oka (1907-1990)
A.L. Copley	133 Oka's Theories Bearing on the Vessel-Blood Organ and its EEFL Interface
S. Oka	141 Excerpt from letter of 23 May 1990 to A.L. Copley
	<i>Proceedings of the Seventh International Congress of Biorheology, Nancy, France, 18-23 June 1989, Part V</i>
	<i>Symposium: Cardiac Muscle Cell Rheology</i>
P. Brun, J. Malak, M.H. Bui, A.M. Duval and J. Ohayon	143 A modeled distribution of actomyosin interactions in the vertebrate cardiac muscle
J.K. Gwathmey and R.J. Hajjar	151 Protein kinase C activation in human ventricular myocardium
H.E.D.J. ter Keurs, P.Ph. de Tombe, P.H.M. Backx and T. Iwazumi	161 Rheology of myocardium. The relation between force, velocity, sarcomere length and activation in rat cardiac muscle
R.S. Chadwick	171 Prediction of the cardiac muscle force-velocity relation from its force-time and force-length relations
	<i>Papers</i>
H.-Q. Chen, G.-H. Zhong, L. Li, X.-Y. Wang, T. Zhou and Z.-Y. Chen	177 Effects of gender and age on thixotropic properties of whole blood from healthy adult subjects
L. Weiss, J.P. Harlos and G. Elkin	185 Measurements of compression of Ehrlich ascites tumor cells and their relevance to hematogenous metastasis
J. L. Cezeaux, V. Austin, M.C. Hosseinipour, K.A. Ward and S. Zimmer	195 The effects of shear stress and metastatic phenotype on the detachment of transformed cells
N. Rudraiah, S.R. Kasiviswanathan and P.N. Kaloni	207 Generalized dispersion in a synovial fluid of human joints
S.P. Sutera and D.J. Krogstad	221 Reduction of the surface-volume ratio: A physical mechanism contributing to the loss of red cell deformability in malaria
G.B. Nash	231 Red cell mechanics: What changes are needed to adversely affect <i>in vivo</i> circulation
Y.I. Cho and K.R. Kensey	241 Effects of the non-Newtonian viscosity of blood on flows in a diseased arterial vessel. Part 1: Steady flows
M. Kaibara and Y. Kawamoto	263 Rheological measurement of blood coagulation in vascular vessel model tube consisting of endothelial cells monolayer
M. Minamiyama and S. Hanai	275 Propagation properties of vasomotion at terminal arterioles and precapillaries in the rabbit mesentary
B. Diebold, A. Delouche, E. Abergel, Ph. Delouche, Ph. Dumée and P. Péronneau	287 Influence of pulsatility on the development of intracardiac jets: An <i>in vitro</i> laser Doppler study
