VOLUME 12, SUPPLEMENT 1

1992

**Advances in Hemorheology***Contents*

A.M. Ehrly	v Preface
R. Schneider	1 Is Hemodilution Effective in the Treatment of Ischemic Stroke?
P. Költringer, W. Langsteger, G. Pierer F. Reisecker and O. Eber	9 Influence of Application Time of a 6% Hydroxyethyl Starch (200.000/0.6-0.66) on the Hemorheologic Effect on Patients With Cerebrovascular Disease
A. Haass, J. Treib and M. Stoll	17 Hemorheological Parameters of Hydroxyethylstarch 200/0.62 as a Basis of Hemodilution
H. Goslinga, J.H.A. Heuvelmans, E. van der Laan de Vries and V.M.J. Melis	27 Hemodilution and Rehydration in Stroke Patients. A Preliminary Report
E. Ernst	35 Hemodilution for Peripheral Arterial Occlusive Disease
H.G. Höffkes and A.M. Ehrly	41 Optimal Hematocrit in Patients With Intermittent Claudication. Exercise Induced Muscle Tissue Oxygen Pressure After Stepwise Isovolemic Hemodilution
G.B. Nash	57 White Blood Cell Rheology and Atherosclerotic Ischemic Disease
J. Boldt, B. Zickmann and G. Hempelmann	71 Volume Replacement With Hydroxyethylstarch Solution in Cardiac Surgery
W. Kröll, T. Colombo, G. Wolf, H. Ramschak, P. Ferdinand and W.F. List	79 Does 6% Hydroxyethylstarch (HES 200/0.60-0.66) Influence Hemostasis?
W. Langsteger, P. Költringer, G. Pierer and O. Eber	93 The Effect of Rapid Hypervolaemic Hemodilution on Blood Viscoelasticity: Course Observation Over 5 Days

## CLINICAL HEMORHEOLOGY

VOLUME 12, NUMBER 2

1992

## CONTENTS

*Conference Communications**Proceedings of the Seventh European Conference on Clinical Hemorheology, Southampton, U.K., 16-19 July 1991—Part II**Symposium: Hemorheological Aspects of Sickle Cell Disease*

- F.A. Ferrone 163 Sickle hemoglobin polymerization: The relationship between kinetics and pathophysiology
- C. Brugnara 177 K transport and red cell dehydration in sickle and normal erythrocytes
- K. Sugihara and R.P. Hebbel 185 Multiple mechanisms of sickle erythrocyte adherence to vascular endothelial cells
- D.K. Kaul 191 Microvascular flow behavior of red cells in sickle cell anemia

*Non-Conference Communications**Review Article*

- J. Stuart 203 Rheological consequences of sickle-cell dehydration

*Papers*

- J.J.M.L. Hoffman, J.J.R.M. Bonnier and I. Bartholomeus 217 Hemorheological effects of a nonionic contrast medium: An *ex vivo* study
- A.M. Ehrly and K. Saeger-Lorenz 223 The effect of Hydergine® on the filterability of erythrocytes from hyperosmolar blood
- A. El-Gatit, N. Al-Khaja, A. Belboul, G. Rådberg, D. Roberts and G. William-Ollson 229 Effects of Prostaglandin E1 on oxygen reactive metabolites and blood rheology during cardiopulmonary bypass for cardiac surgery
- M. Brockmann, S. Koeppen, R. Maleßa, G. Schwendemann and L. Heilmann 237 Hyperviscosity in pseudotumor cerebri
- I. Anadere, Y. Schmitt, H. Schneider and E. Walitza 243 The effect of  $\omega$ -3 polyunsaturated fatty acids on hemorheological parameters of patients under chronic hemodialysis treatment
- S.-A. Evans and J.G. Jones 255 Leukocyte filterability and hypoxia
- H. Hara, A. Kitajima and Y. Tamao 267 Improvement of red blood cell deformability by a new anti-platelet agent, MCI-9042
- Cui Xizhong and Xu Longshao 279 Hemorheologic changes during acute lung injury induced by oleic acid in dogs. I. Hemorheologic changes
- A. Mary, C. Bonne and G. Modat 287 Erythrocyte deformability in an in vitro model of hypoxia/reoxygenation—protective effects of superoxide dismutase and catalase
- S. Katoh, K. Yamamoto and M. Kitao 297 Fetal erythrocyte deformability in hypoxia during delivery
- M. Caswell and J. Stuart 309 Storage of blood samples for measurement of plasma viscosity and erythrocyte sedimentation rate
- 317 *Abstracts: International Symposium on Hemorheology in Cerebral Vascular Disorders, Shanghai, People's Republic of China, 24-28 June 1991*
- 339 Contents of *BIORHEOLOGY*, Volume 28, Number 6

## CLINICAL HEMORHEOLOGY

VOLUME 12, NUMBER 3

MAY-JUNE 1992

## CONTENTS

*Conference Communications**Proceedings of the Seventh European Conference on Clinical Hemorheology, Southampton, U.K., 16-19 July 1991 - Part III**Symposium: Hemorheological Effects of Contrast Media*

- D. Lerche and G. Hennicke 341 The effects of different ionic and non-ionic X-ray contrast media on the morphological and rheological properties of human red blood cells
- F. Zannad, J.-M. Idée, M. Nain-dit-Ducret, C. Balut, A. Huntsman, M.-M. Le Mignon, A.-M. Donadieu, A. Pikon and D. Doucet 357 Effects of ioxaglate and nonionic contrast media on erythrocytes filtrability and morphology. Review of previous studies and evaluation of clinical relevance
- N.H. Strickland, M.W. Rampling, P. Dawson and G. Martin 369 The effects of contrast media on the rheological properties of blood
- M.R. Hardeman and P.T. Goedhart 381 Interrelationship of changes in hemorheological parameters induced by low osmolar ratio-contrast media
- R. Raininko 393 Stability of contrast media induced red cell aggregates. A review
- P. Aspelin 401 Contrast media and red blood cell aggregation - interaction dangerous or harmless from a clinical view. An overview
- Non-Conference Communications Papers*
- M. Caswell, M.P. Corlett, J. Stuart and B.S. Bull 407 Tests for monitoring the acute-phase response to surgery
- C. Bucherer, J. Ladjouzi, C. Lacombe, J.C. Lelièvre, H. Vandewalle, Y. Beuzard and F. Galacteros 415 Effect of deoxygenation on rheological behavior of density separated sickle cell suspensions
- J.A. Bhatt, K. Deo, R.R. Puniyani and R. Gupte 427 A comparative study of the haemorheological profile in the third trimester of pregnancy: Normal and with pregnancy induced hypertension
- B. Bertram, S. Wolf, O. Arend, K. Schulte, T.W. Pesch, F. Jung, H. Kiesewetter and M. Reim 437 Blood rheology and retinopathy in adult type 1 diabetes mellitus
- G. Caimi, S. Romandini, R. Lo Presti, A. Serra, M. Montana, G. Francavilla and A. Sarno 449 Erythrocyte membrane fluidity during mesoglycan treatment
- Brief Communications*
- A. Chabanel, J. Klaren, G. Andreu and M. Samama 455 In spite of elevated plasma fibrinogen, red blood cell aggregation is not increased in smokers
- Xiao-Ju Zhang and Yi-Ling Zhang 461 Correlation between relative blood viscosity at standardized hematocrit of 0.45 and red cell rigidity in liver cirrhosis with hypersplenism
- 465 *Abstracts: Tenth Annual Meeting of Deutsche Gesellschaft für Klinische Mikrozirkulation und Hämorheologie, Mainz, Germany, 14-15 November 1991*
- 491 *Abstracts: Third Vienna Workshop on Hemorheology, Vienna, Austria, 12 December 1991*
- 497 Contents of *BIORHEOLOGY*, Volume 29, Number 1

## CLINICAL HEMORHEOLOGY

VOLUME 12, NUMBER 4

JULY-AUGUST 1992

## CONTENTS

		<i>Conference Communications</i>
		<i>Proceedings of the Seventh European Conference on Clinical Hemorheology, Southampton, U.K., 16-19 July 1991—Part IV</i>
		<i>Symposium: Hemorheology and Exercise</i>
E. Watts	499	Haematological adaptation to exercise
D.S. Tunstall Pedoe	505	Blood doping
C. Bucherer, C. Lacombe, J.C. Lelièvre and H. Vandewalle	511	Effect of a hydric intake on the rheological properties of blood after a submaximal exercise
E. Ernst and T. Saradeth	521	Hemorheology and exercise: Aspects for PVD
S. Forconi, M. Guerrini and V. Turchetti	527	Local haemorheological changes and intracellular erythrocyte Ca <sup>++</sup> content in exercising ischaemic limb
		<i>Symposium: Epidemiology of Blood Rheology</i>
G.D.O. Lowe, A.J. Lee, A. Rumley, W.C.S. Smith and H. Tunstall-Pedoe	535	Epidemiology of haematocrit, white cell count, red cell aggregation and fibrinogen: The Glasgow MONICA study
P.C. Elwood, J.W.G. Yarnell, P.M. Sweetnam and J.R. O'Brien	545	Plasma viscosity and fibrinogen in the Caerphilly and Speedwell studies
W. Koenig, M. Sund, E. Ernst, W. Mraz, V. Hombach and U. Keil	549	Blood lipids and lipoproteins are main determinants of plasma viscosity: Results from the MONICA-project Augsburg
F. Jung, G. Pindur and H. Kiesewetter	557	Plasma viscosity dependence on proteins and lipoproteins: Results of the Aachen study
		<i>Non-Conference Communications</i>
		<i>Papers</i>
A. Craveri, G. Tornaghi, L. Paganardi, R. Ranieri, S. Cietto, S. Scaglioni, R. Bellù and M. Giovannini	573	Hemorheological changes in obese children and the effect of weight loss
R. Ajmani, R.R. Puniyani and V.S. Jaiswal	579	Blood viscosity pattern in ABO blood groups in hypertension
H. Sabio and V.C. McKie	587	Modified (mixed) erythrocyte sedimentation rate in sickle cell anemia
Huang Yi Min, Zhong Wei, Qian Min Quan and Zhou Rong	593	Correlation between hemorheological parameters and viscoelasticity of thrombus in rats after exposure to carbon monoxide
	599	<i>Abstracts: Eighth International Congress of Biorheology, Yokohama, Japan, 3-8 August 1992</i>
	625	<i>Announcement</i>

**CLINICAL HEMORHEOLOGY**

---

VOLUME 12, NUMBER 6

NOVEMBER–DECEMBER 1992

## CONTENTS

S. Witte and J.-F. Stoltz	785	<i>Editorial</i>
D.E. McMillan	787	Hemorheologic therapy to control diabetic vascular disease
J. Stuart	797	Sickle cell anaemia - Rheology of the steady state and vaso-occlusive crisis
E. Ernst	805	Fibrinogen, a cardiovascular risk factor
C. Dosquet and J.-L. Wautier	817	Blood monocyte adhesion to vascular endothelial cells. Implication in vascular pathology
Fu-long Liao, Wen Li and Xiao-jie Yin	831	A new hemorheological approach for evaluation of antiplatelet and anticoagulative drugs — Rotational viscometry
R. Bauersachs, R.B. Wenby, C. Pfafferoth, P. Whittingstall and H.J. Meiselman	841	Determination of red cell deformation via measurement of light transmission through RBC suspensions under shear
T. Maeda, A.C. Fisher and G.B. Nash	857	Modulation of platelet-induced granulocyte aggregation by pharmacological agents
H. Al-Zahrani, G.D.O. Lowe, J.T. Douglas, R. Cuschieri, J.G. Pollock and W.C.S. Smith	867	Increased fibrin turnover in peripheral arterial disease: Comparison with a population study
O. Ziegler, H. Candiloros, X. Derriennic, S. Müller, M. Donner, J.-F. Stoltz and P. Drouin	873	Erythrocyte aggregation in diabetes mellitus: Role of plasmatic and membrane factors
H. Schmid-Schönbein and H. Goslinga	883	Review article: The present state of hemodilutional therapies: Potentials and limits of the most potent tool of "clinical hemorheology"
S. Witte	903	On perihemorheology: Some facts and perspectives
Y. Isogai, T. Yokose, S. Ikemoto, T. Maeda, M. Akiyama and K. Kuchiba	935	Platelet size, shape and filterability
G.V.F. Seaman, R.J. Knox, the Late L.J. Jackson and R.L. Swank	947	Comparison of physicochemical and hematological parameters for blood from multiple sclerosis patients and normal subjects
	959	<i>Errata, CH 12(4), pp. 581 and 584</i>
	961	Contents and Author Index for Volume 12, 1992
	971	Contents of <i>Biorheology</i> Volume 29, Numbers 2/3
