## Contents

**Papers**

- D. Ovadyahu and Z. Priel: Characterization of metachronal wave in beating cilia: Distribution of phases in space (p. 677)
- J.D. Humphrey, R.K. Strumpf and F.C.P. Yin: A theoretically-based experimental approach for identifying vascular constitutive relations (p. 687)
- Y. Takano: The flow rate of blood in an environment of weightlessness (p. 703)
- K.G. Engström: A new red blood filtration device with improved time resolution and its application to the impaired RBC deformability in the diabetic ob/ob mouse (p. 711)
- S.Y. Kim, I.F. Miller, B. Sigel, P. Macke Consigny and J. Justin: Ultrasonic evaluation of erythrocyte aggregation dynamics (p. 723)
- M. King, J.M. Zahm, D. Pierrot, S. Vaquez-Girod and E. Puchelle: The role of mucus gel viscosity, spinnability, and adhesive properties in clearance by simulated cough (p. 737)
- J.M. Zahm, D. Pierrot, S. Vaquez-Girod, C. Duvisier, M. King and E. Puchelle: The role of mucus sol phase in clearance by simulated cough (p. 747)
- R.V. Sagayamary and R. Devanathan: Steady flow of couple stress fluid through tubes of slowly varying cross-sections - Application to blood flows (p. 753)
- A. Chabanel and M. Samama: Evaluation of a method to assess red blood cell aggregation (p. 785)
- J.M. Zahm, D. Pierrot, C. Fuchey, J. Levrier, D. Duval, K.G. Lloyd and E. Puchelle: Comparative rheological profile of rat gastric and duodenal gel mucus (p. 813)
- S. Gallik, S. Usami, K.-M. Jan and S. Chien: Shear stress-induced detachment of human polymorphonuclear leukocytes from endothelial cell monolayers (p. 823)
- P. Chaturani and V. Palanisamy: Microcontinuum model for pulsatile blood flow through a stenosed tube (p. 835)
- S. Swarnamani and M. Singh: Analysis and erythrocyte aggregation mechanism in presence of dextran and magnetic field by ultrasound scattering in blood (p. 847)
- C.B. McKay and H.J. Meiwell: Osmolality- and hematocrit-mediated flow behavior of RBC suspensions in 33 um ID tubes (p. 863)
- Announcement:
- Contents of CLINICAL HEMORHEOLOGY, Volume 9, Numbers 1, 2, 3
- 1 Software Survey Section
