

Education and training for librarianship and information work: Annual bibliography, 1992

Alan J. Clark

Librarian, Information and Library Studies Library, University of Wales Aberystwyth, Llanbadarn Fawr, Aberystwyth, Dyfed SY23 3AS, United Kingdom

The 1992 bibliography follows its established pattern, covering items published worldwide during the previous year.

Subject access is provided by the contents list and classified arrangement and through a subject index which includes entries for countries and regions. The name index includes entries for authors and name subject entries for individual organisations and programs. During 1992 polytechnics in the United Kingdom achieved university status. Items in the bibliography have been entered under the name of the institution at the time the article concerned was written, which in many cases was the name of the former polytechnic.
