Education and training for librarianship and information work: Annual bibliography, 1994

Alan J. Clark

Librarian, Thomas Parry Library, University of Wales Aberystwyth, Llanbadarn Fawr, Aberystwyth, Dyfed SY23 3AS, United Kingdom, e-mail ajc@aber.ac.uk.

The 1994 bibliography follows the pattern of earlier years, covering items published world-wide during the previous year.

Subject access is provided by the contents list and classified arrangement and through a subject index which includes entries for countries and regions. The name index includes entries for authors, both personal and corporate and name subject entries for other entities.

As from 1st August 1995 the Information and Library Studies Library has changed its name to the Thomas Parry Library. Sir Thomas Parry was the chairman of a committee set up by the United Kingdom's University Grants Committee which produced the important Parry Report on University Libraries in 1967. Sir Thomas Parry was also National Librarian of Wales and Principal of the University in Aberystwyth. Thomas Parry Library is therefore an appropriate name for this major librarianship research collection.

Lack of time resulting from the work involved in planning an extension to the library has prevented me extending the scope of the bibliography to include electronic sources of information this year. However, the Library has just appointed an Electronic Documentation Officer, one of whose roles will be to identify librarianship and information science materials available in electronic formats and therefore, next year's bibliography will include such items.
