INFORMATION FOR CONTRIBUTORS

Submission of material

Contributions to the Journal are welcomed in any form, although preferably by E-mail or on an MS-DOS formatted 5.25 or 3.5 inch floppy disk. In case contributors prepare their manuscripts with wordprocessors, it should be noticed that text files in WordPerfect, Tex or Troff format can be processed directly by the Editors, thereby alleviating their task considerably.

Abstracting and indexing

Contributors may be interested to know that the ICCA Journal, as of Vol. 10, No. 1, is a source for the Institute for Scientific Information® (ISI) for inclusion in the CompuMath Citation Index® (CMCI®), the Automatic Subject Citation Alert (ASCA®) and SCISEARCH®, ISI’s on-line database. Author abstracts are now also available in Current Contents on Diskette®, and in on-line files such as SCISEARCH® and Current Contents Search®. Moreover, the Journal is also a source for the Information Company R.R. Bowker for inclusion in the International Serials Database which is a source for Ulrich’s International Periodicals Directory and the DIALOG on-line service.

Being included in the CMCI®, the ICCA Journal is one of the 400 Journals in mathematics, computer science, statistics, operations research, and related disciplines which is abstracted and/or indexed and/or available as tearsheets; this means that the Journal now is accessible in (on-line) database form.
