**THE 1995 WORLD COMPUTER-CHESS CHAMPIONSHIP
Preliminary Announcement**

*D.N.L. Levy*¹

London, England

The ICCA is in discussion with a potential sponsor about the possibility of holding the 8th World Computer Chess Championship in Hong Kong during the first week of April 1995. At the time of going to press we regret that it is not possible to give any definite information, hence this preliminary announcement.

If the event does take place in Hong Kong the ICCA expects to be able to provide travel and hotel grants for up to 16 non-commercial teams. The total number of entries allowed will probably be up to 24. The tournament committee would comprise: Professor Tony Marsland, Professor Monty Newborn and David Levy.

In order to allow sufficient time for the ICCA to select the participants and for everyone to make their travel arrangements, the closing date for entries will be December 31st, 1994. This may be before publication of the next issue of the ICCA Journal and so it is essential that anyone who might be interested in competing in the World Championship registers their interest as soon as possible. Prospective entrants should write or fax to David Levy with the following information:

- Name of program.
- Name, address, telephone numbers (home and work), fax number and e-mail address of the team member who will be the contact with the ICCA.

If a definite decision is made about the venue and dates of the 8th World Championship before publication of the next issue of the ICCA Journal, everyone who has registered their interest in the event will be notified immediately and provided with full information about the tournament.
