IBM System/34 Chess Program Offered

We received a letter from Mr. John C. Abramson, who made the following offer to ICCA members:

"...I spent the period of mid-May through Labor Day, 1981 working on a program named Chess-Elle/34 for the IBM System/34.

...Anyone who will ship me a scratch 2D diskette and a self-addressed stamped envelope will get a copy. The program still needs a lot of work, but will also do a lot of things and includes about 30-40 pp. of documentation..."

Mr. Abramson's address is:
