

THE SWEDISH RATING LIST UPDATED

ICCA Communication

by Göran Grotting

No new chess machines have been investigated since last time. The number of games recorded has now risen to 3720. Confidence limits at the 95 level have now also been derived for some of the machines' ratings: for Mephisto Amsterdam, e.g. they extend 22 points on either side of the 2017 ratings stated. As before, figures in parentheses indicate the number of games recorded.
