

Announcement

CARNet Users Conference – CUC

27–29 September 2004, Zagreb, Croatia

Following the 5 years of experience with CARNet Users Conference – CUC, enriched with joint TERENA & CARNet TNC & CUC 2003 Conference, CARNet continues to organise the annual event dedicated to ICT users.

CUC provides a meeting place and brings together users, researchers, scientists, IT experts and all who are willing to face IT challenges. CUC is designed as a platform that provides all Internet users with the opportunity to exchange ideas, and to present and discuss their knowledge and experiences.

The Croatian Academic and Research Network would like to invite you to participate in CUC 2004. This year we are going to investigate the opportunities brought by the new developments in ICT as well as the requirements for the future.
