

*Dear reader,*

*Because the pass away of mr. G.P. Zanen, the publishing of International Shipbuilding Progress (I.S.P.) will be continued by 'Delft University Press' as from January 1988.*

*In order to keep the costs under control and at the same time to guarantee the quality of I.S.P. some more changes are envisaged.*

*Among others, the format will change from the present A4 into a B5 format (16.5 x 24 cm) which is also in line with modern development.*

*Much less happy we are that I.S.P. as a monthly periodical has to be changed into a quarterly issue.*

*The custom of forwarding proofprints for author's correction purposes is also a service that has to be discontinued.*

*Within that framework your Executive Editors hope sincerely to continue to serve you and prospective authors for a long time to come.*

*We also hope that I.S.P. in its new form will keep your interest as a source of knowledge in marine technology.*

*Please keep sending contributions to be considered for publication in I.S.P. or any queries you may have as an author to: P.O. Box 199, 2600 AD Delft, The Netherlands.*

*The Executive Editors.*

*I want to thank the authors and readers of International Shipbuilding Progress for their confidence over the years my late husband G.P. Zanen published this magazine.*

*S.F.M. Zanen*  
*Mrs. S.F.M. Zanen.*
