

Instructions to authors

Manuscripts should be submitted to:

For countries other than Americas: Angus Stover, Droitwich Knee Clinic, St. Andrews Road, Droitwich, Worcs., WR9 8EA, United Kingdom. Tel: (+44) 1905-794858; Fax: (+44) 1905-795916.

For the Americas: Zeevi Dvir, Dept. of Physical Therapy, Sackler Faculty of Medicine, Tel Aviv University, P.O. Box 39040, Ramat Aviv, 69978 Tel Aviv, Israel. Tel: (+972) 3-6409019; Fax: (+972) 3-6409223

Aims and scope

Isokinetics and Exercise Science (IES) is an international journal devoted to serving the professional needs of the contemporary exercise scientist, medical practitioner, and allied health clinician through a consolidating focus upon the field of isokinetics.

All contributions are peer-reviewed for quality and acceptability before publication. On acceptance for publication, papers are subject to editorial amendment. Authors are asked to transfer copyright of their papers to the publisher, Elsevier Science, in accordance with the requirements of the U.S. Copyright Act, 1976. Authors are solely responsible for the factual accuracy of their papers.

Editorial policies

Original articles will be considered for publication. All articles must be submitted to the journal exclusively. Manuscripts should be sent in triplicate to the editor. A covering letter should accompany the manuscript and identify the author responsible for correspondence concerning the manuscript. The letter should state that the material contained in the manuscript has not been published and has not been submitted for publication elsewhere. Articles should be written in English. Authors whose native language is not English are requested to have their manuscripts checked for linguistic correctness before submission. Authors are advised to keep a copy of their manuscript. For the processing of accepted papers electronic versions are preferred (see 'Electronic manuscripts' section). If the manuscript is published, it becomes the property of the journal.

Authorship

For manuscripts with two or more authors, each author must qualify by having significantly participated in the study that is reported. Each author must make substantial contributions to first concept and design or analysis and interpretation of data and second, writing the manuscript or revising it critically for content. Others contributing to the work should be recognised separately in an Acknowledgement.

General requirements for preparation of manuscripts

The original and two good-quality photocopies of the manuscript and three sets of black-and-white glossy prints of illustrations are required. Manuscripts must be submitted in English. Manuscripts must be typed double-spaced on one side only of 22 × 28 cm (8 1/2 × 11 inch) white bond paper with 1-inch margins at top, bottom, and sides. Number pages consecutively in the upper right-hand corner in the following order: title page, condensation, abstract, body of text, acknowledgements, references, figure legends and tables.

Authors in Japan please note: Upon request, Elsevier Science Japan will provide authors with a list of people who can check and improve the English of their paper (*before submission*). Please contact our Tokyo office: Elsevier Science Japan, 20-12 Yushima 3-chome, Bunkyo-ku, Tokyo 113. Tel: (03)-3833-3821; Fax: (03)-3836-3064.

Electronic manuscripts

Electronic manuscripts have the advantage that there is no need for the rekeying of text, thereby avoiding the possibility of introducing errors and resulting in reliable and fast delivery of proofs.

The preferred storage medium is a 5/4 or 3/2 inch disk in MS-DOS format, although other systems are welcome, e.g., NEC and Macintosh (in this case, save your file in the usual manner, do not use the option 'save in MS-DOS format'). Please **do not split** the article into

separate files (title page as one file, text as another, etc.). Ensure that the letter 'l' and digit '1' (also letter 'O' and digit '0') have been used properly, and structure your article (tabs, indents, etc.) consistently. Characters not available on your word processor (Greek letters, mathematical symbols, etc.) should not be left open but indicated by a unique code (e.g., galpha, @, #, etc., for the Greek letter α). Such codes should be used consistently throughout the entire text. Please make a list of such codes and provide a key. Do not allow your word processor to introduce word splits and do not use a 'justified' layout. Please adhere strictly to the general instructions on style/arrangement and, in particular, the reference style of the journal. It is very important that you save your file in the wordprocessor format. If your wordprocessor features the option to save files 'in flat ASCII,' please do **not** use it. Format your disk correctly and ensure that only the relevant file (one complete article only) is on the disk. Also, specify the type of computer and wordprocessing package used and label the disk with your name and the name of the file on the disk. After **final acceptance**, your disk plus one, final, printed and exactly matching version (as a printout) should be submitted together to the accepting editor. **It is important that the file on disk and the printout are identical.** Both will then be forwarded by the editor to Elsevier. Further information may be obtained from the Publisher.

Title page

The title page (page 1) should contain in sequence the title (concise and suitable for indexing purposes); author line with first name, middle initials, and last name of each author; city(ies), state(s) and countries in which the study was conducted; divisional, or departmental, and institutional affiliations at the time the study was performed; name, address, telephone number, and fax number of author to whom requests for reprints should be addressed; and name, address, telephone number, fax number and e-mail number of author responsible for correspondence concerning the manuscript if different from author to whom reprint requests are addressed.

Abstract page including key words/phrases

On manuscript page 3, type the abstract, double-spaced, with the required margins and headed by the title of the article and name(s) of author(s). Below the abstract list 3 to 5 key words or short phrases for indexing purposes.

Text

Only standard abbreviations are to be used. Consult the *Index Medicus*. Abbreviations in the title are not ac-

ceptable. They should be avoided, if possible, in the abstract and keywords. In the text they should be kept to practical minimum. The full term for which an abbreviation stands should precede its first use in the text unless it is a standard unit of measurement.

Acknowledgements

Acknowledge only persons, institutes and agencies who have made substantial contributions to the study.

References

Journal references must be double-spaced, must begin on a page separate from the text, must be arranged alphabetically by the lead author's last name, and must be numbered. Each reference must be cited in the manuscript. The full names of referenced journals should be abbreviated in the format used by *Index Medicus*. List all authors who contributed significantly to the manuscript. The style and punctuation should conform to the following examples:

- Journal:* Mayer TG, Gatchel R: A prospective two-year study of functional restoration in industrial low back injury. *J Am Med Assoc* 258:1763–1767, 1987
- Book:* Davies GJ: A compendium of isokinetics in clinical usage. Third edition. LaCrosse, WI: S and S Publishers, 1987.
- Chapter:* Stauber WT: Eccentric action of muscles: physiology, injury, and adaptation. In: Pandolf KB, editor: *Exercise and sport sciences reviews*, volume 17, Baltimore, MD, MD: Williams and Wilkins, 1989.
- In Press:* Timm KE, Malone TR: An investigation of submaximal isotonic versus submaximal isokinetic eccentric muscle training. *J Orthop Sports Phys Ther* (in press).
- Symposia:* Rawlins C: The establishment of an isokinetics journal. In: *Proceedings of the Pulitzer Prize Committee*, Boston, MA, January 1991, pp. 1–101. London: Butterworth-Heinemann.
- Presentation:* Wilk K: Feature comparison of isokinetic systems. Presented at the 1989 International Isokinetic Congress, Incline Village, NV, April 5, 1989.

Personal communications and unpublished data, if essential, may be used but not as numbered references. If they are used, they are to be referred to, within parentheses, at the appropriate location in the text. If used, the author(s) must obtain written and signed permission for their use from the individual being quoted. This signed permission must accompany the manuscript when it is submitted to the Editor. Published abstracts can be

used as numbered references, however, reference to the complete published article is preferred.

Figures

The term *figure* includes all types of illustrations such as graphs, diagrams, photographs, flow charts, and line drawings. A reasonable number of figures will be reproduced without charge, but special arrangements must be made with the Editors for color figures at an additional charge to the author (contact the Publisher for further information). The quoted charge is per page of color, and as many as eight color figures can be included on one page if the color balance is appropriate.

Figures must be cited consecutively in the text in Arabic numerals and identified with a gummed label on the back of the figure with author(s) name(s), title of article, figure number, and top marked clearly. Consistency in size within the article is strongly preferred. Any special instructions regarding sizing should be clearly noted. Do not use paper clips, or mark the surface of figures in any way. Figures will be returned only if requested by the author.

For *black-and-white figures*, submit three sets of 3 × 4 inch (minimum) to 5 × 7 inch (maximum) unmounted, glossy prints. All lettering must be done with commercially available paste-on letters (or numbers) or by a professional; typed or freehand lettering is not acceptable. All lettering must be in proportion to the drawing, graph, or photograph.

Original drawings, appropriately done in black India ink, and other material must be submitted as glossy prints with good black-and-white contrast.

For *color figures* submit original transparencies and two sets of unmounted prints on glossy (smooth surface) paper. Polaroid prints are not acceptable. Color transparencies must have a color balance (consistency in lighting and film speed) that is acceptable to the author and Editors before acceptance for publication. Please note that 35 mm transparencies are enlarged to twice their original size. If it is important to deviate from this standard, please so indicate when the material is submitted. The top, first author's last name, and figure number must be indicated on the front of each transparency and the back of each print.

Computer-generated figures must be legible and clearly printed in jet black ink on heavy coated paper with either a glossy or dull finish. Any patterns or shadings must be dark enough for reproduction and must be distinguishable from each other. Lines, symbols, and letters should be both smooth and complete. The legend should not appear on the figure. On the back of each figure, the name of the first author and the figure number should be given and the top indicated. Three original individual laser or plotter prints are to be submitted *unmounted* with the manuscripts. Laser prints should be

full size at 300 dots per inch (DPI) or greater full-page resolution; multiple illustrations on a page cannot be accepted. Dot matrix prints and photographic halftones are not acceptable. *Color figures* are acceptable, but special arrangements must be made with the Editors. The colors used must be dark enough and of sufficient contrast for reproduction. With the exception of fluorescent colors, all colors can be reproduced in four-color figures. The preparation and submitting of color prints should follow the preceding guidelines for black-and-white computer-generated illustrations.

Legends to figures

Legends for all figures must be typed together in numerical order double-spaced on a separate sheet. This page must be numbered in sequence after the references. Titles should be included in the legend, not on the print. Original magnifications should be provided. If a figure has been taken from copyrighted material, the legend must give full credit to the original source.

Tables

Tables should be typed on separate sheets of paper, one table to a page, and included at the end of the text. They should be numbered in Arabic numerals. Each table must be cited in sequence at an appropriate point in the text. Titles should be brief yet indicate clearly the purpose or content of each table, and each column should be precisely defined by headings. Abbreviations and special designations should be explained in a footnote to the table. If a table or any part thereof has been taken from copyrighted material, a footnote to the table must give full credit to the original source.

Measurement Units

Author(s) should use the standard measurement units listed below in the preparation of their manuscript. Any other measurements must conform to the International System of Units (Système International d'Unités, or SI Units).

Isokinetic angular velocity: degrees per second (deg/sec), or radians per second (rad/sec) with conversion formula presented in manuscript text.

Isokinetic linear velocity: inches per second (in/sec), or meters per second (m/sec) with conversion formula presented in manuscript text.

Peak torque: Newton-meters (Nm), or foot-pounds (ft-lbs) with conversion formula presented in manuscript text.

Peak force: Newtons (N), or pounds (lbs) with conversion formula presented in manuscript text.

Power: watts (W)

Work: joules (J)

Permissions

Direct quotations, tables, or figures that have appeared in copyrighted material must be accompanied by written permission for their use from the copyright owner and original author along with complete reference information. Photographs of identifiable persons must be accompanied by signed releases. If not, all recognizable features must be masked.

Page proofs

One set of **page proofs** will be sent to the authors to be carefully checked for printer's errors. Changes or additions to the edited manuscript will *not* be allowed at this stage. Authors are requested to return the corrected proofs, if possible, within 48 hours of receipt, in view of the scheduled production time. If a delay is likely proofs should be faxed or sent by courier.

Reprints

The corresponding author will receive, with the proof of his article, an order form for **reprints**. This must be completed and returned to the publishers with the proof. Orders for reprints cannot be accepted at a later date because the reprints are made at the time the journal is printed. Fifty free reprints will be made available per contribution.

Business communications

Communications of a business nature and all advertising communications should be addressed to: Elsevier Science B.V., Advertising Department, P.O. Box 211, 1000 AE Amsterdam, The Netherlands, Tel. (+31-20) 4853795, Fax. (+31-20) 4853810.
