Nepriysin-Like Acticity Correlates with CSF-Tau and Phospho-Tau in Patients with Alzheimer's Disease

Katrine Christa Nordskov Sorensen, Anja Hviid Simonsen, Ulla Bachmann Holmetoft, Steen Gregers Hasselbalch and Niels H.H. Heegaard

[*Journal of Alzheimer's Disease* **37**(2) (2013), 379–387, DOI 10.3233/JAD-122410]

On p. 380, left column, 5 lines from the bottom, reference 23 is erroneously cited as follows:

“In contrast, nicastrin, a component of the gamma-secretase complex down-regulates the expression and activity of NEP [23].”

The sentence instead should read:

“Also, deficiency of nicastrin, a component of the gamma-secretase complex down-regulates the expression and activity of NEP [23].”
