

Author Index

Volume 1 (1992)

Alagappan, K., see J.J. Tardo	295–316
Ammann, P.E. and R.S. Sandhu, The Extended Schematic Protection Model	335–383
Bieber, P. and F. Cuppens, A Logical View of Secure Dependencies	99–129
Cuppens, F., see P. Bieber	99–129
Foley, S.N., Aggregation and Separation as Noninterference Properties	159–188
Gligor, V.D., see S. Gupta	133–158
Gray, J.W. III, Toward a Mathematical Foundation for Information Flow Security	255–294
Gupta, S. and V.D. Gligor, Towards a Theory of Penetration-Resistant Systems and Its Applications	133–158
Hu, W.-M., Reducing Timing Channels with Fuzzy Time	233–254
Jacob, J., Basic Theorems about Security	385–411
McLean, J., Proving Noninterference and Functional Correctness Using Traces	37–57
Meadows, C., Applying Formal Methods to the Analysis of a Key Management Protocol	5–35
Motro, A., A Unified Model for Security and Integrity in Relational Databases	189–213
Sandhu, R.S., Expressive Power of the Schematic Protection Model	59–98
Sandhu, R.S., Guest Editor's Preface	131–132
Sandhu, R.S., see P.E. Ammann	335–383
Syverson, P.F., Knowledge, Belief, and Semantics in the Analysis of Cryptographic Protocols	317–334
Tardo, J.J. and K. Alagappan, SPX: Global Authentication Using Public Key Certificates	295–316
Wray, J.C., An Analysis of Covert Timing Channels	219–232
