Author Index

Volume 2 (1993)

Ashby, E., see J.D. Horton 279–290

Atluri, V., E. Bertino and S. Jajodia, Achieving Stricter Correctness Requirements in Multilevel Secure Database Management Systems 311–351

Benson, G., see J. Epstein 159–190

Bertino, E., see V. Atluri 311–351

Beth, T. and H. Strack, Guest Editors' Preface 1

Beth, T., Obituary: Fighting for Computer Security – Chris Jahl – in Memoriam 3–4

Boer, B. den, A Simple and Key–Economical Unconditional Authentication Scheme 65–71

Branstad, M., see J. Epstein 159–190

Brocklehurst, S., see B. Littlewood 211–229

Cooper, R.H., see J.D. Horton 279–290

Danner, B., see J. Epstein 159–190

Dobson, J., see B. Littlewood 211–229

Epstein, J., J. McHugh, H. Orman, R. Pascale, A. Marmor–Squires, B. Danner, C.R. Martin, M. Branstad, G. Benson and D. Rothnie, A High Assurance Window System Prototype 159–190

Fenton, N., see B. Littlewood 211–229

Gligor, V.D., S.–W. Luan and J.N. Pato, On Inter–Realm Authentication in Large Distributed Systems 137–157

Gollman, D., see B. Littlewood 211–229

Graham–Cumming, J., Laws of Non–Interference in CSP 37–52

Haertig, H., O. Kowalski and W. Kuehnhauser, The BirliX Security Architecture 5–21

Harland, R., see J.D. Horton 279–290

Horton, J.D., R.H. Cooper, W.F. Hyslop, B.G. Nickerson, O.K. Ward, R. Harland, E. Ashby and W.M. Stewart, The Cascade Vulnerability Problem 279–290

Hyslop, W.F., see J.D. Horton 279–290

Jajodia, S., see V. Atluri 311–351

Kemmerer, R., see J. McLean 87–88

Kowalski, O., see H. Haertig 5–21

Kuehnhauser, W., see H. Haertig 5–21

Lam, K.–Y., Building an Authentication Service for Distributed Systems 73–84

Lam, S.S., see T.Y.C. Woo 107–136

Littlewood, B., S. Brocklehurst, N. Fenton, P. Mellor, S. Page, D. Wright, J. Dobson, J. McDermid and D. Gollmann, Towards Operational Measures of Computer Security 211–229

Luan, S.–W. see V.D. Gligor 137–157

Marmor–Squires, A., see J. Epstein 159–190

Martin, C.R., see J. Epstein 159–190

McDermid, J., see B. Littlewood 211–229
McHugh, J., see J. Epstein 159–190
McLean, J. and R. Kemmerer, Guest Editors' Preface 87–88
Mellor, P., see B. Littlewood 211–229
Millen, J.K., A Resource Allocation Model for Denial of Service Protection 89–106
Mitchell, C. and A. Thomas, Standardising Authentication Protocols Based on Public Key Techniques 23–36
Nickerson, B.G., see J.D. Horton 279–290
Orman, H., see J. Epstein 159–190
Page, S., see B. Littlewood 211–229
Pascale, R., see J. Epstein 159–190
Pato, J.N., see V.D. Gligor 137–157
Rothnie, D., see J. Epstein 159–190
Sandhu, R.S., see R.K. Thomas 231–275
Sgarro, A., Information–Theoretic Bounds for Authentication Frauds 53–63
Stewart, W.M., see J.D. Horton 279–290
Strack, H., see T. Beth 1
Thomas, A., see C. Mitchell 23–36
Thomas, R.K. and R.S. Sandhu, A Kernelized Architecture for Multilevel Secure Object–Oriented Databases Supporting Write–Up 231–275
Trostle, J.T., Modelling a Fuzzy Time System 291–309
Ward, O.K., see J.D. Horton 279–290
Woo, T.Y.C. and S.S. Lam, Authorization in Distributed Systems: A New Approach 107–136
Wright, D., see B. Littlewood 211–229
Yahalom, R., Optimality of Asynchronous Two–Party Secure Data–Exchange Protocols 191–209
