Call blocking probabilities for dynamic and fixed assignment of a single channel in a linear cellular array, by A.L. Wijesinha, D.P. Sidhu and S.P. Kumar, *Journal of High Speed Networks*, Volume 5, Number 1, 1996, pp. 35–51.

1. In the unnumbered equation following (25), replace $\binom{n-k+1}{j}$ by $\binom{n-k+1}{k}$.
2. In equation (33), replace $+(\frac{\gamma-1}{2})^{n+1}$ by $-(\frac{1-\gamma}{2})^{n+1}$.

Neither correction affects any of the results.
